Frank Morgan At Present Cruising Hereabouts, Featured In Current Capitol Theatre Picture

Frank Morgan, who is at present cruising in waters contiguous to Prince Rupert, is starred as a timorous tenderfoot in "Henry Goes Arizona," an hilarious comedy of the old cow country, which is one of the pictures of a double bill program being shown at the Capitol Theatre here tonight. The other feature of the double bill is "Seventeen," starring Jackie Cooper and Betty Field.

Sockeye Season Opens Up Well — Troll Fishing is Quiet Again — Earlier Closing of Halibut Season Explained

In spite of unfavorable weather conditions with rain and wind, sockeye gillnetters on the Skeena and Naas Rivers for the first week of the 1940 fishing season have averaged fifteen to twenty fish per boat, according to fisheries department figures. High boat on the Skeena River is reported as having taken 110 fish in a single day while the high boat for the Naas River took eighty. Four hundred boats are operating on the Naas River and 800 on the Skeena. All canneries went into operation during the first week in July. If weather should turn fine, it is expected there will be a considerable improvement in the run of sockeye.

Just before July 1 there was quite a spurt in the run of cohoes at Dundas Island and on the flats outside of Prince Rupert. In a few days, however, it fell off. The salmon run on the North Island trolling grounds of the Queen Charlotte Islands is proving very disappointing this year. So far there have been practically no fish in the Wark Canal area. It looks like another lean year for the trollers in 1940.

The week just ended was again heavy for halibut landings at Prince Rupert, a total of 837,000 pounds being brought in — 260,000 pounds from Canadian vessels and 577,000 pounds from American. This brings the total for the 1940 season to date up to 9,683,519 pounds as compared with 8,277,700 pounds at a corresponding date last year. Canadian landings this year to date are 3,912,919 pounds in comparison with 3,633,700 pounds at the corresponding date last year while American landings have reached a total of 5,770,600 pounds as against 4,644,000 pounds. Prices were stiffer during the week with the high bid of the week for Canadian fish 10.6c and 7c which the D.S.T. was paid for 5,000 pounds and the low 9.5c and 7c which the Margallice was paid for 2800 pounds. For American fish the high price of the week was 10.1c and 7.5c which the Blanco received for 17,000 pounds and the low 9c and 7.5c which the Eagle and Sunset were paid for catches of 40,000 and 37,000 pounds respectively.

The International Fisheries Commission reports that American and Canadian halibut fleets have landed a grand total of 28,862,958 pounds from the start of the season on April 1 through to June 30 at all ports on this coast from all areas. The catch for the same period last year was 25,943,079 pounds.

In explanation of the International Fisheries Commission announcement that Areas 1 and 2 would be closed to all halibut fishing at midnight of July 13, sixteen days earlier than last year, it is explained that the earlier attainment of the Area 2 quota (22,700,000 pounds) and the consequent earlier closure of Areas 1 and 2 in 1940 have been caused by an increase in the rate of landing due to several factors. Twenty-five to thirty new vessels have been added to the Area 2 fleet this year. A number of vessels that in previous years left the halibut fishery in June have elected to continue halibut fishing to the end of the Area 2 season because of higher halibut prices and uncertainty regarding the profitability of the salmon fishery to which they normally turn. A change in the regulations, restricting fishing to a single area on any one trip, has brought about the correct reporting of considerable quantities of Area 2 catches previously reported as from other areas. In addition to the above, the rate of landings in Area 2 has been accelerated by the increased catch per man per trip allowed one section of the fleet under the fisherman's self-imposed curtailment program. This program, which limits the size of trips and provides for tie-ups between trips, is designed to spread landings over a longer season. The Commission recently received a request for an increase in the Area 2 catch limit to extend the fishing season. It was unable to grant the increase because of the unsatisfactory condition of the Area 2 stock. Improvement in this stock has ceased and some deterioration has

occurred due to excessive fishing during the last few years.

Canadian National Steamships officially deny a rumor that the coastwise liners Prince Rupert and Prince George are to be acquired by the Canadian Pacific and placed in the Vancouver-Victoria-Seattle service. Judging from a communication received from the company there is no basis whatsoever for such rumors which were heard at the time the Canadian National relinquished the Queen Charlotte Islands service and the steamers Prince Charles and Prince John to the Union Steamship Co.

C.P.R. steamer Princess Alice, Capt. Robert Thompson, southbound from Skagway to Vancouver after a regular tourist voyage north, is due in port at 4 o'clock this afternoon and will sail at 5:30 p.m.

C. N. R. steamer Prince George, Capt. H. E. Neddin, returned to port at 10:45 this morning from Stewart and will sail at 4 o'clock this afternoon for Vancouver.
