TOO COLD?

Why Not Answer This Question Accurately by Referring to a

If you depend simply on your own or somebody else's sense of heat it is quite possible the temperature will be actually unhealthy, for overheated rooms sap vitality while rooms below 68 degrees produce colds and kindred ills. Also uniform heat-means big economy in fuel bills.

For relieving discomforts of chest colds and night coughs, rub VapoRub on throat, chest, and back at bedtime. VapoRub's poultice-vapor action relieves congestion of upper air passages—eases soreness of chest and back muscles-helps the youngster relax into healing sleep.

V For coughing and irritated throat caused by colds, put VapoRub on the child's tongue to relieve the irritation. Then massage VapoRub on throat and chest.

I For "sniffles" and misery of head colds, melt VapoRub in a bowl of boiling water. Have the child breathe in the steaming vapors. This loosens phlegm, clears air passages, makes breathing easier. Also massage VapoRub on throat and chest. Millions of families use these three timetested treat- VICKS ments.

DUE TO INCREASE IN PRICE OF
