BUILDING CANADIAN MOTOR CARS IS A NATIONAL WAR INDUSTRY The establishment of Canada's Automotive Industry has re-

sulted in the creation of a home market of inestimable value to each and every one of the Provinces. The interchange of goods and money can be appreciated when one remembers that this industry alone spends in the Dominion every year on an average of \$130,000,000 which finds its way to every part of Canada. In turn, Canadians purchase Canadian-built cars, thus keeping money in Canada and helping employment. No dollar stays where it is made but is distributed gradually to the most remote part of the Dominion. The Automotive Industry is National in purpose and National in scope. When you buy a Canadian-built car, you help your own Province as well as Canada as a whole.
