A SMOOTH CUY

Adolf Hitler is one of these "smooth guys." tongue landed him in the position of chancellor and his ally winning 17 to 16. Highlight of force made him dictator. Now he rules most of Europe the game was a home run by Alma St. Louis except Great Britain and he is covetous to control that Hingston who also made a three-Washington little group of islands. Should the fotos doorse that he bagger. little group of islands. Should the fates decree that he gets that much, he will never be satisfied until he takes their eighth straight to the Whirla slice out of European Russia and has Italy under his winds by a score of 10 to 1. heel. He is that kind. Just as soon as he stops conquer ing, his rule in Germany will end.

People who listened to his speech carried here by radio yesterday say that it was one of the smoothest, Thomas. cleverest speeches ever heard. It was an attempt to make the world think that Germany was naturally a peaceful (6). Blain, Basso-Bert, Payne, Arnation, wishing nobody any harm and that the only aim in life was to benefit humanity.

British people will not be fooled by this speech. It is certain that we in Canada are not fooled by it. We never liked a wolf in sheep's clothing and we have had too many lessons in the past months to feel disturbed over the real meaning of this particular wolf.

AUSTRALIA SPEAKS

Australian ships have spoken for the country they represent. They have sunk one of the crack Italian cruis ers and put another to flight.

This is not a mythical sinking, like so many of those claimed by the enemy. After the sinking of the ship a Arney, Scorekeeper was D. Monte-British destroyer stopped and picked up nearly half of sano. the members of the crew, something like 250 men. It is an indication to the world that Empire support is really valuable.

New Zealand and Canadian naval units have also been active with credit to themselves.

A CRAZY WORLD

This does seem to be a crazy world. Our ships set out to sink enemy ships and to shoot down all who oppose them. Then when a ship is sunk the British sailors risk their lives trying to save members of the crew of the enemy vessel who are in danger of drowning. These rescued men will be taken to a British port, treated kindly, fed well and held there until the war is over or until they get a chance to escape. If they escape they will at once rejoin the Italian forces trying again to kill the Bri-i tish.

LET THE WORLD KNOW

The people of Germany are forbidden to listen to radio broadcasts emanating from Great Britain or Un- LOST-Gold cross on chain at Salt ited States. They are subject to severe punishment if they do this. The German dictator does not think it would be good for the people to hear the truth. In this . country and in Great Britain the people are allowed to, listen to anything they wish. The government trusts the you can run a Home Kindergarpeople, believing that they have sense enough to distinguish between the false and the true.

We have often wondered how the people of Canada! would feel if the government issued a decree that they NOW IS THE TIME TO GET A were not to listen to American or German radio broadcasts. We feel sure they would be inclined to keep their radios tuned to the banned stations just to show the government that they can do as they like in this country and that they are entitled to hear every side of every question discussed.
