A letter has been received from Harry Harcus, Robert Kydd and W. Ironsides expressing appreciation of the Christmas Cheer given the unemployed and others by the Rex Cafe and also by the Sunrise Grocery and other Chinese merchants in the city. There is not space for the whole letter but that is the sentiment conveyed.

GYRO CLUB ACTIVITIES

Reports covering 1939 activities, presented to the regular monthly business luncheon of the Prince Rupert Gyro Club today, showed that some $1500 had been expended by the club during the year on its playground work including the conducting of supervised playground activities during the summer, improvement and maintenance of the grounds and further development of Morse Creek as a swimming resort in summer and a skating rink in winter.

Playground work was again the principal feature of Gyro Club activity during the past year but an important innovation was war activity work which was commenced around November 1 and upon which some $250 has been to date expended principally in supplying stationery, recreational facilities etc., for the naval and military units which are garrisoned locally including ships operating from the port, barracks and fortress points.

Other expenditures for the year by the Gyro Club on community service included $100 for the Booth Memorial School gymnasium shed, $75 for community centre plans and $20 for renovation of the hospital ward.

In addition to this, the club continues to work towards the community centre project in connection with which it is taking a leading part.

The Gyro Club will have its installation of 1940 officers on January 24 with District Governor Roy Sharp of Seattle coming north to take charge of the ceremonies in that connection. It was decided that the installation should be combined with a special farewell to W. H. Tobey, a past president and district governor, and Mrs. Tobey.

Past President D. G. Borland presided over today's luncheon in the absence of President W. M. Watts. There was a good attendance of members.

Mr. Rolston stated that there was a decided feeling of optimism in the southern cities in regard to the future due not to war stimulation but to the entry of new capital into the country for industrial purposes.
