MAKING FINE RECORD

The Royal Air Force is making a fine record for itself nd around England, Scotland and Wales. It has been ng heavy toll of the Germans who have been attackin force. Each day sees something like fifty or sixty my planes shot down, either by the British fighter nes or by anti-aircraft guns.

And all the time the British planes are taking heavy of the Germans in their attacks on German military! ectives. Planes on the ground have been destroyed in ge numbers, fuel and ammunition dumps have been exded and burned, airplane factories have been bombed, eks used for loading military supplies have been damed, ships in dock struck, and particularly heavy raids FOR RENT-First class room and we been made on fuel depots, trains and barges. This ause to the Germans fuel is a vital necessity and one FOR RENT-4-room modern house. he supplies of which they are short.

Many people do not seem to realize the effectiveness phens. an incendiary bomb. The magnesium used in these hos burns brighter when sprayed with water. They are ticularly effective in destroying oil supplies, ammunidumps and such buildings as airplane factories.

C.C.F. WORRIED

C.C.F. seems to be worried because the Conserve party is not contesting the riding of Mackenzie in by-election to fill the seat in the Legislature vacated SHIPPER, first aider, wishes posihe death of the former member. The Conservatives the stand that political strife is not desirable in time war. The C.C.F. evidently feel that, if the Liberals and nservatives were fighting each other, they would have hance of slipping in as a third party.
