Control Of Sea Will Lead To Allied Victory In War; Gyros Hear About Graf Spee Affair

Control of the seas by Great Britain will lead to ultimate victory for the Allies in the present war in the opinion of Lieut. Orme Stuart R.C.N.V.R. who was the speaker yesterday at the regular weekly luncheon of the Prince Rupert Gyro Club. The navy has already proven its mettle with such exploits as the defeat against heavy odds of the Admiral Graf Spee, the scuttling of which formed the subject of Lieut. Stuart's interesting discourse. [illegible]

Graf Spee Stronger

[illegible]

[illegible] voting phase lasted for an hour and a half, starting at a range of 19,000 yards and closing at 8000 yards. Eleven-inch guns of the German proved very accurate up to a range of 12,000 yards. The Exeter, also under fire of the enemy 5.9-inch guns, had her steering gear damaged and her speed was reduced to eighteen knots. Finally, the ship had to fall out of action, leaving the Ajax and Achilles to shadow the Graf Spee. Before she was put out of action, however, she had made three direct hits on Graf Spee, the fire control tower of which had been put out of business. At night the Ajax and Achilles forced the Graf Spee close in-shore. [illegible]

F. M. Dockrill, well known Telkwa coal operator, is paying a business visit to the city, having arrived from the interior on Tuesday night's train. He went north to Stewart yesterday and will spend a little time here on his return.

Malcolm Hunt Is To Graduate

Making Tour Of Mining Centres Before Completing Course At University

GOLDEN, Colorado, May 2. — Malcolm M. Hunt, of Prince Rupert, is one of the eighty senior students of mining and metallurgy at the Colorado School of Mines to leave Golden May 4 on an extended inspection tour of the mineral industries before graduation, May 24.

Hunt and his classmates will observe operations of mines and metallurgical plants in the midwest. Their itinerary calls for stopovers in Hibbing, Minnesota; Houghton, Michigan; Chicago, Illinois; St. Louis, Missouri; Alton, Illinois; and Bonne Terre, Missouri. From these points the members of the party will visit important centres of the mineral industries.

Police Court Fines Little Changed Here

Police court fines in Prince Rupert so far this year have totalled $[illegible] as compared with $[illegible] in [illegible] April fines this year amounting to $[illegible] compared with $[illegible] in April 1939.

TEACHERS TO MEET

District Council Proposed — City Commissioner Is Sympathetic

The regular monthly meeting of the Prince Rupert Teachers' Association was held last evening with T. L. Davies, president, in the chair.

Correspondence included communications regarding the forming of a district council that would include teachers from adjacent points. There are many problems of a professional nature that could be solved, it was felt, if teachers could discuss them with other teachers. This was not possible in the outlying settlements but if the teachers could meet occasionally at a central point the problems could be considered and views exchanged with mutual benefits accruing. The matter will be gone into further and the possibility of a fall convention as a partial solution will be discussed.

Another matter that aroused considerable interest was the proposed new constitution. Teachers will have an opportunity to consider this at length as they will have copies for their personal study and the whole matter will be considered at the June meeting.

A delegation that had met City Commissioner R. S. Gilchrist recently reported on the interview. They had been very favorably impressed with the sympathetic and understanding attitude of commissioner. [illegible]
