MOMENTOUS DAY

Yesterday was a day that made history. In the first place there was the entry of Italy into the war on the side of Germany and against Canada. That was the outstanding event which affects this country. There are thousands of Italians or people of Italian origin in Canada and they must feel their position particularly difficult.

On effect of the entry of Italy in the war will be to close the back door of Germany to supplies from neutral nations.

Another important event yesterday was the death in an airplane accident of Hon. Norman Rogers, minister of national defence. He had recently been to Europe and had discussed the manner in which Canada could best serve the Empire in the present conflict. He was young and energetic and was looked upon by many as a possible successor to Prime Minister Mackenzie King. His death is a serious loss to Canada and to the Empire.

All this has taken place at a time when the greatest battle in history was being fought in France. The French are fighting for their home land, for their institutions and customs and they are being aided to the fullest possible extent by the British. The Royal Air Force has been one of the greatest powers in hampering the Germans because of the destruction of fuel oil and other supplies, blowing up bridges and highways and tunnels and generally impeding the advance of the forces of the enemy.

HOW CAN YOU HELP?

We all have to consider how best we can aid the Allies in the war effort. A registration is now going on of all those willing to do anything to help the cause. A ready response is expected.

This registration, it is explained, is entirely voluntary. It gives people of the city an opportunity to express in some tangible form their willingness and determination to stand with the Empire in this hour of trial. Already a good number have come forward and offered their services if required and many more are expected to do so. It is hoped that everybody within the age limit specified will register. Everyone should.

UNITED STATES HELP

While the United States is not taking part in the war as a combatant she is helping a great deal by supplying airplanes, guns, ammunition and other war material. This is done not only as a sentimental gesture but as a means of strengthening their first line of defence in Europe.

MUSICAL YOUTH

SYDNEY, Australia, June 11 (CP)—Melbourne youth is becoming "symphony conscious" says Bernard Heine of the University Conservatorium. He launched a "better music" campaign in 1923 and now has audiences of 3,000 at children's concerts.

Lieut. J. M. Cockburn, who is identified with ordinance department of Military District No. 11, sails by the Catala this afternoon on his return to Victoria after spending a few days here on military duties.

SATKOS ON WAY AGAIN

After a two-day stay at Prince Rupert, Paul Satko, with his wife and seven children, set out at 5 o'clock this morning in their Ark of Juneau in continuation of their voyage from the United States to Alaska. Satko said on leaving that he planned on making the north end of Dundas Island today, then proceeding to Ketchikan. It was raining heavily when Satko left with dark, low clouds. Prospects were that there would be a heavy swell in Chatham Sound through which the migrants and their crude boat must pass on the ensuing stage of their voyage.

On Metlakatla Bar
 Capt. Horace Tattersall of the fish packer Chief Tapeet, arriving this afternoon, reported the Ark's tiring on the Tugwell Island bar this morning, the expectation being that the vessel would proceed on a high tide.

It's the cumulative effect of an artist's that counts.
