GREEKS DO WELL

The Greek inhabitants of Australia recently donated to war services one days' wages for each employed man and the total takings of one day from every store keeper Every man is reported to have given something. It was a splendid gesture on the part of people of that nationality.

WHY HONORARY MEMBERS?

We are asked why opposition leaders should be made honorary members of the Canadian government and not voting members. We think we know the reason. If the opposition were full parties to all cabinet moves it would be fully responsible for everything done by the cabinet. This they may not want to be. Under the plan announced the opposition would have all the information available and would hear the discussions without being bound by the de-1. cisions. However, they would, like other cabinet members, be bound to secrecy just as much as the others.

FRENCH NAVY IS OUT

According to the latest despatches the French Navy is now either in the hands of the British or out of commission. Writing of this Elmore Phillpott says:

"Never in history did any government have to make a BARGAIN for immediate sale. 42 more terrible decision than that by the Chruchill ministry to sink the French fleet rather than to permit it to fall into the hands of Hitler. It was not only a case of having to take the lives of hundreds of French seamen who personally would have preferred to fight on beside the British rather than to submit to the sellout by Petain and Laval. "But my estimate of the whole melancholy affair is]. that it would have been the height of criminal folly for Britain to do anything else than she did do. I know of WANTED to purchase, male cocker nothing in all the long story of man more dishonorable than the submission by the Petain government to terms which even included the turning against Britain of the war machinery of France, in spite of the most formal and solemn of treaties whereby the two countries had agreed NOW IS THE TIME TO GET A not to make a separate peace.

"The predicament of the Churchill government and the British navy in having to fight through this battle, against all natural inclination, is typical of the predicament of our whole generation. This fight to forestall world conquest by the most ruthless of tyrants is going to'cut across national loyalties, and, before it is finished, per-There is only one way that I LESSONS in typewriting.
