Shipyard Work . . .

With the commencement of actual construction of Total houses for the dry dock workers and with the possible Dry Dock Fittersextension of shipyard work it is very satisfactory to o'Dowd know that Lloyd's have at this port now a fully qualified wilmot and permanent surveyor to check on the work.

It will be part of the duty to the new surveyor to Ostberg make regular progress reports both to Lloyd's and to Handicap the owners of the freighters which, indirectly, means the Totals federal government, which also is indirectly the owner steel workersof the shipyard. He also reports on the mine sweepers E. Linney and on the United States transport Kvichak now being P. Carr reconditioned at the yard.

A surveyor at this port will be an assurance to all S. Arlington Mae Drage persons concerned that Prince Rupert can do work equal Handicap to any in the country. Any criticism made by this paper in connection with the dry dock has never been at the sav-Morquality of the work done but rather at the economic Brand aspect of the work. All reports indicate that the actual Alger stegavig work on the ships has been excellent.

Important Gathering . . .

The conference taking place today at Moscow prom- McCaffery ises to be outstanding in that it is one in which the de-| Gunderson mocracies of the world put all their cards on the table stiles and indicate that they trust each other. It is a confer- Hall ence not only for the purpose of gathering strength to Low Score defeat the common enemy but where the statesmen and officials of each country may learn a great deal from; the others and is the first step toward a general under- Thomson standing which should have a profound effect on the Cameron settlement of after the war problems.

We prophesy that the Moscow conference will go down into history as an epoch-making event of outstanding importance.
