#### This Is The Time - - -

This is the time to show of what stuff we are made. The news from Greece is bad. When the news is bad is the time when the courage of British people rises and they fight on to victory. Of course, we shall win the war. That goes without saying. Because we have a setback does not mean anything except to notify us all that we! must tighten our belts and determine more than ever that Hitlerism must fall.

We met Hitler on ground of his own choosing and we fought with weapons chosen by him. Now we must fight! on until we meet under different conditions. At the time | 610. of writing we do not know anything like all that has happened in Greece and YugoSlavia. Possibly before this is published we may have more news and the disaster may be greater or not so great. At any rate it is bad enough! and we must determine to meet it.

When Hitlerism is finally crushed we shall look back 198. to this date as one of the difficult places in the war, a FOR SALE-Dinette suite with 6 the erection of community bunk point that was rounded successfully and which, instead of; causing the British, Canadians, South Africans and New Zealanders to be discouraged, stiffened their sinews and FOR SALE-Trolling boat, 28 feet, and made them resolve that no sacrifices could be too! great to be endured for the cause for which they are fight-

We have been told by some that the war was won at Dunkerque. Possibly in the future we shall look back and say that the war was won at Dunkerque and in Greece. This is no time to be down-hearted. The British have tak-FOR RENT-One room and board en the whole of East Africa including Ethiopia and, in spite of any setback such as that of which we heard this morning, we shall carry on until victory is ours. That is FOR RENT-4-room apartment unthe way of the British.

#### Canada Will Do Her Part - - -

Those of us who are Canadians and who have imbibed somewhat of the British spirit and the enjoyment of freedom, will doubtless rise to the occasion and do our part. We have already given freely of our dollars to help carry on. More than that is needed. We must give of our life for man and 3 children. Apply maximum length of approximately blood, if necessary. We must be ready and willing to back up the young men who have gone overseas to take WANTED-Office girl with bookpart in the "great adventure." Let us bend to the task and see that there is no weakening of effort or of spirit. Remember, it is the Spirit that wins.

#### Shipbuilding - - -

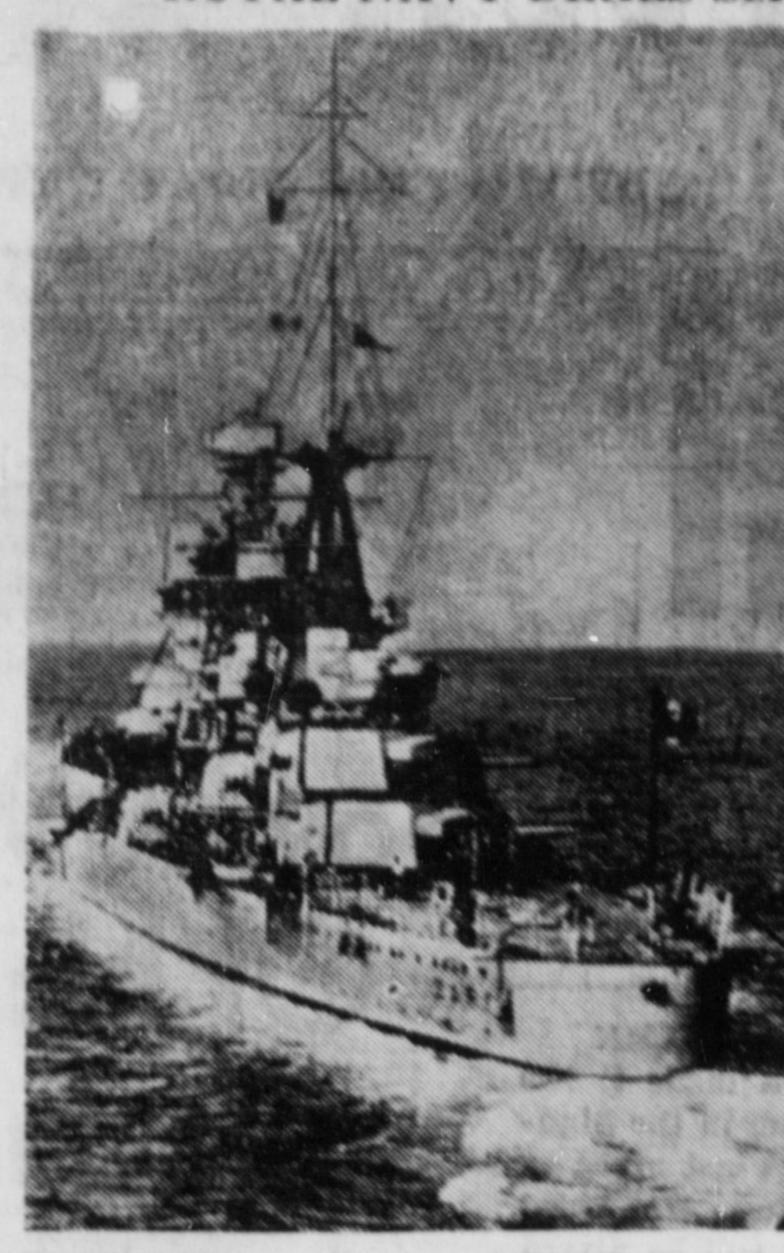

Only recently this paper published an article from Ot-1 tawa in which it was said that the Minster of Supply promised that two big steel ships were to be built in the Prince Rupert shipyard. On Monday the superintendent of the shipyard told us that they were able to handle shipbuilding efficiently and profitably at Prince Rupert. To-1 day we are told that, under the new set-up with H. R. Mac-Millan at the head, two ten-thousand ton cargo vessels will be built at Prince Rupert. It is good news for us as a MEN who can sell high quality city. We are glad that Prince Rupert is able to help the Empire in this way.

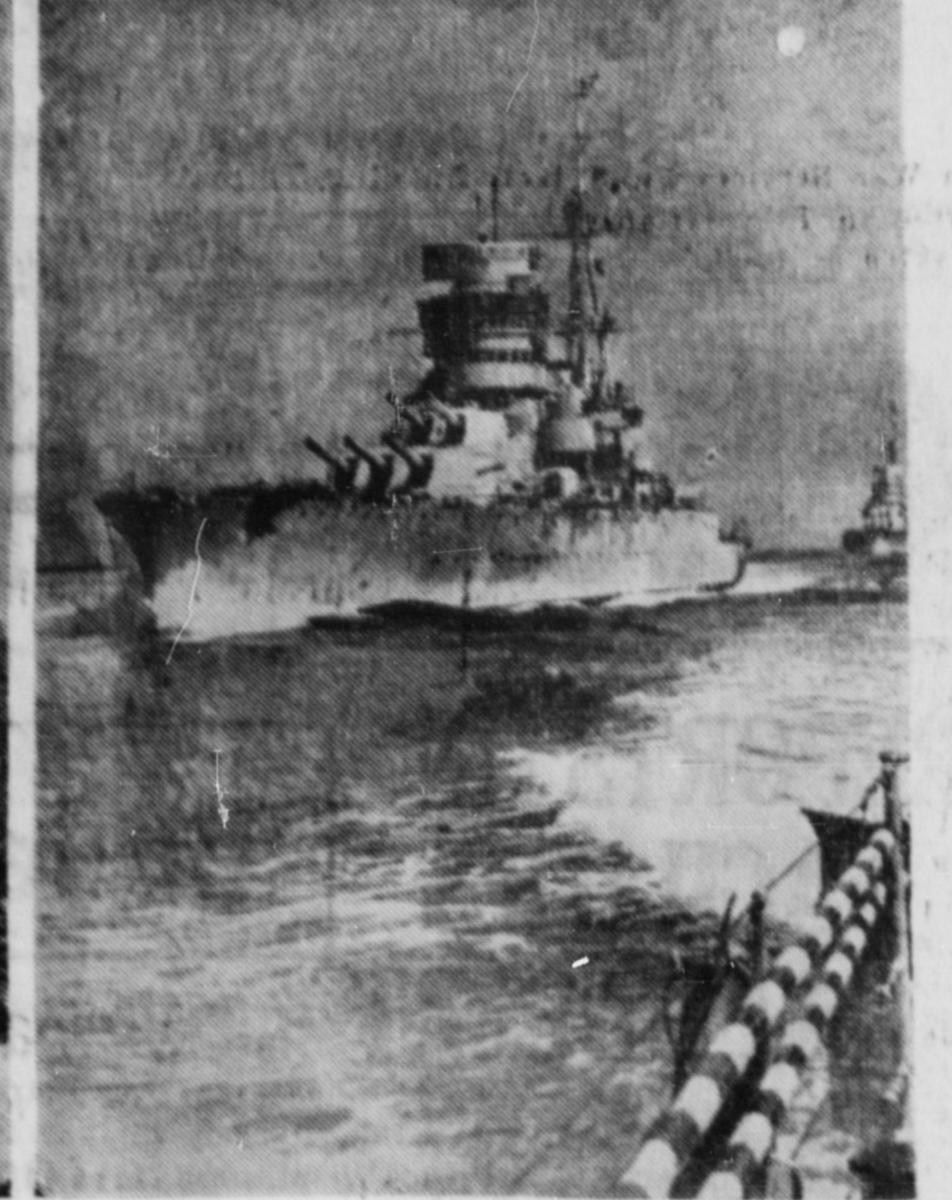

## Just A Possibility - - -

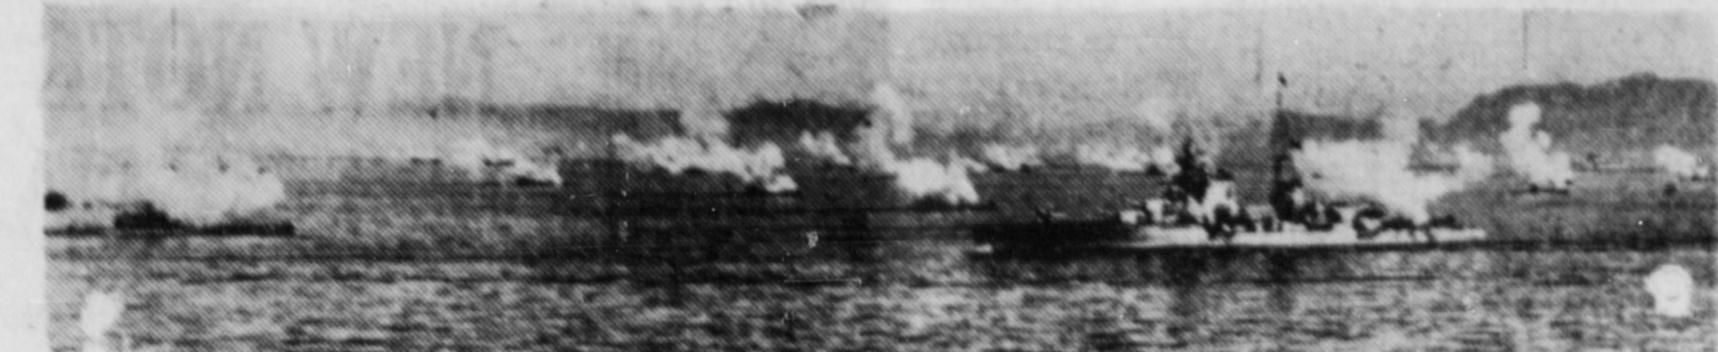

It is just possible that the Germans have been allowed. to drive down through to Salonika and that this driving force may be cut off and the Greek, British and YugoSlavian forces close in behind it and cut it off. The condition in that country is differens from what it was in France. We still trust Wavell.

It's interesting to know when reading the Daily News that the people of the whole district are doing the same.

ROYAL NAVY DEALS SMASHING BLOW TO IL DUCE

Scoring the greatest naval victory of the war, British warships caught the Italian fleet in the Ionian Sea, sinking seven of Il Duce's warships and inflicting serious damage on a 35,000-ton battleship. Three Italian cruisers, the Pola, Fiume and Zara, left above, were sunk in the action that saw two destroyers and probably the cruiser Gio anni sent to the bottom. This was the first major battle between the Royal Navy and the Italian Navy and not a single Italian shell found its mark An Italian cruiser, Conte di Cavour is pictured, up per right, while the Italian Navy is pictured, botbottom, making a big noise for Hitler's visit to Italy in 1938.

REPORTS ON FACILITIES

(Continued from Page One)

Prince Rupert, but they have not the same time the matter of hips up to now made any of these items, or wooden boats building will be and I am informed by Mr. Boulter, taken up with the ontroller of the local manager, that they were Shipbuilding and Ship Repairs. able to purchase these items cheaper in Vancouver than they could make them due largely to more or less mass production at Vancouver

"The management of this plant are greatly concerned over the housing problem which is so pre-Radio. Good condition. Phone | valent in Prince Rupert. They (87) claim married men are reluctant at - staying there owing to lack of ac-FOR SALE-Chickens. Phone Red commodation as they cannot bring (87) their families to Prince Rupert. The management have been considering chairs, new condition. Phone houses, commissary, etc., but this in my opinion would not make for permanency and still would not permit their employees to bring in their families. As against this scheme, I suggested the thought of prefabricated houses of say four rooms to be built on the hundreds of vacant lots long since acquired by the city.

"Imperial Machine Works-H. R. Love operates this plant. It is a small shop with small equipment but quite capable of doing certain repair jobs. A detailed list of equipment is now being prepared.

"Star Welding and Repair Works -H. B. Stiles operates this shop and the same can be said of this as is the case with the Imperial

N. M. McLean, Boat Builder, Seal Cove-This is a small plant but quite capable of building one or two 85 feet. Mr. McLean is considered to be quite a competent wooden boat builder. He is now building a 75 foot boat for one of the fishing companies. I am given to understand Mr. McLean has a very com-

petent staff with him. "Mr. Wahl-This man operates a small yard across the harbor from Prince Rupert. His capacity NOW IS THE TIME TO GET A small but he had already built GOVERNMENT JOB as clerk, few rowboats for the Department Postman, Customs Clerk, Steno., of National Defence. My thought etc. Five Dominion-wide exams here is that he should confine him-
