Visualizing an inevitable post-war depression, Mr. O'Neill would keep the Terrace-Prince Runert chance to give employment to de-mobilized soldiers.

Through Valley To Better Days

hristian Hope And Belief Firm Foundation For Surmounting Trial And Despair

Through the valley of deep trial d tribulation may well lead to the highway to brighter and beter days, suggested Rev. A. F. Macween in the morning sermon to his congregation of First Presbyterian Church yesterday. The efect of suffering and hardship, heavy personal affliction, on one might be soul-searing and embitterment in case he might be entirely ownk. To another the same suffering might lead to a greater sympathy and understanding in which case he emerged a better person. Much depended upon the root and, if the foundation was Christian faith, there was no obstacle, no hardship, to be feared, if they were faced squarely and honestly. Such thoughts as these, the pastor suggested, were appropriate in these dark and dangerous days.

A MESSAGE FROM THE WAR SAVINGS

The people of Canada are the most fortunate in the world.

Fortunate in the great sweep of space that is ours from ocean to ocean.

Fortunate in the vast yield and immense resources of our forests, fields and mines.

Fortunate, too, in our democratic institutions.

In a word, fortunate in our freedom. This freedom is threatened today as it has never been threatened before.

The help of every Canadian is needed for Victory.

In these days of war the thoughtless, selfish spender is a traitor to our war effort.

A reduction in personal spending is now a vital necessity to relieve the pressure for goods, to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make, demands this self-denial of each of us.

Invest in War Savings Certificates the dollars you don't need to spend. After Victory, they come back to you with interest. Spend less NOW so that you can spend more THEN, when labour and materials will be available for the things you need. There is no price too high for freedom.

The fall of the British Empire would mean complete dislocation of our unfettered way of life.

Everyone wants this way of life defended-this freedom saved-for our own future and for posterity. The response to every appeal for our defence has been magnificent-heartening to the whole Empire - alarming to Hitler.

But the need for weapons of war grows ever more urgent, as the Nazi threat spreads wider over the world.
