EDITORIAL

Increasing Danger - - -

The expected tension with Japan seems to have started. On Saturday Japanese ships were ruled out by the British and American insurance companies. Only by special application can insurance be obtained on these vessels. As Lloyds' are apt to get first notice of any possible extrarisks this seems to be a very important ruling.

Again on Saturday there was trouble in Shanghai, a place where the Japanese have been making themselves very objectionable and where it would take very little now to cause a war issue.

We suggest that this is a time when Prince Rupert 18-foot Peterborough canoe, first should be ready in case of anything happening. It may be nothing to worry about but it is something to prepare for. The difficulty everywhere in Europe has been that the nations were not prepared.

Our air raid precautions were a step in the right direction. Possibly this may be the time to increase the precautions and have another test blackout. At any rate it is a time to be watchful and careful and to keep in mind that no place is safe on the Pacific or the Atlantic and possibly the Pacific is the more vulnerable and liable to attack.

We do not think there is likely to be an invasion of Canada but there may be nuisance raids. If bases were so sought, Prince Rupert would be the most likely place to be chosen by the enemy.

Highway To Seal Cove - - -

One of the important needed improvements in Prince Rupert just now is the widening of the highway to Seal. Cove. There is a great deal of traffic over that road and it will tend to increase rather than decrease. When a loaded car meets one of the wide busses there is danger to For RENT 5-rooms and bath, both vehicles. At night driving there is extremely diffi-

Better Bus Service - - -

We are getting very near the time when a much better bus service will be required for the people of Seal Cove ROOM for rent. Apply Suite 9, and possibly for the people of Westview also. That is the reason why we have felt that the city should take over the FOR RENT-Furnished Apartment, franchise and run a regular half hourly service from one end of the city to the other.

The present service is a great convenience to the people beyond Hays Creek but it is not anything like as useful as a regular half hourly service would be. It is difficult for those not travelling regularly to remember when a bus may be expected. The idea of a bus service is not to make big profits but to serve the people.

Needed Landing Field - - -

The local airport will not be complete until it has a landing field. This will cost a lot of money but it will be necessary sooner or later. The various surveys of possible sites in the neighborhood have not been successful in finding one that fills the bill in every respect and at anything FOUND—Man's blue hat, size 71/4, like a reasonable cost. From those chosen tentatively it will be necessary to choose the best possible, even though !: not anywhere near perfect. It seems as if a site somewhere across from Kaien Island will be most useful. According to most authorities any landing field that is to be used much should be level for a mile square so that advantage may be taken of the wind in landing or taking off. No site on Kaien Island could be made anything like GIRL wants work as hotel work level for a mile in each direction.

City Council Meeting This Morning -New Car Purchased For Engineer's Department

readings today when acting City Commissioner D. J. Matheson was in session as a city council. Details of the rate bylaw were announced a few days ago.

Third and final reading was given to a bylaw authorizing the transfer of a number of tax sale properties to private purchasers.

Tender of \$1111 from S. E. Parker Ltd. for the supply of a standard coupe for the city engineer's, department was accepted. Rupert Motors bid \$1124 and Long Motors

Granting of cemetery lots to the Canadian Legion was approved.
