Who Is Winning? - - -

All eyes are now on Russia. The Germans allege that the air force is cracking, that the army is being driven back and that Hitler's forces are winning. Then there is another side to the story but the Hitler radios blare loudest and at times it is difficult to hear the Soviet voice because of the bragging of their opponents.

It must be remembered always that noise does not win wars, that bragging of victory does not bring victory and that very seldom is a victory secured in the first few days of a war. The Russian front is a huge one and within a week or two we should know more about the situation.

New Blood Needed? - - -

We are constantly being told by newspapers opposed to the administration that new blood is needed in the government of the country. New people are required at the head. New brains, new ideas and new effort are required.

We admit that new effort is often desirable. We must constantly renew our efforts. Those who are always talking of changes might look over the political situation and tell the people what new blood it is that they would like to see injected into the administration. Where is this wonderful new head that would be beneficial in order to strengthen the present administration. At present the Prime Minister is trusted by the members of the House of Commons and so are his right hand men. Are there men who could with benefit replace them? Not only are they trusted in Canada but also in Britain and the United States. If we could only get a whisper as to who would be the new miracle workers we should be glad to pass on the news.

The Daily News is a member of the Canadian Daily Newspaper Association, of the Canadian Press and of the Audit Bureau of Circulations. It is the only paper north of Vancouver and West of Edmonton holding membership in these organizations.

See the New Electric Ranges

"You won't find me standing over a hot fire this summer! No, ma'am! You can bet a cookie I'll be enjoying the speed and coolness of a new electric range. I'll just turn the switch and let my electric range do the cooking while I enjoy the garden. Ill be glad to demonstrate to anybody because I'm your electrical servant and I never shirk work. If you really want to be cool this summer let me take the work out of cooking —with an electric range.
