DAILY EDITION.

WEDNESDAY, MAY 1

A PROMISE TO BE FULFILLED.

During the late campaign William Manson promised that the Provincial government would lend assistance for the building of a highway around Kaien Island. Prince Rupert needs a boulevard, macadamized, broad and of low percentage grade, serving the commercial interests about to be established at Porpoise Harbor, as well as giving to Prince Rupert a scenic asset unparalleled on the Pacific Coast.

It is a project of moment, and with concerted and united effort something could possibly be accomplished before the present year is at an end.

INSPECTION OF EXPLOSIVES.

Explosives have from the first played a very important part in the development of Prince Rupert. In view of the fact that a number of lives have been lost during the course of the railway and other development work undertaken so far, and that only the other night the city found itself under liability to support a workman injured by a shot which had apparently hung fire while more grading work is also about to be undertaken, the following from the Canadian Mining Journal has a considerable local bearing: "According to the report of the Chief Inspector of Mines for Ontario 50 per cent. of the fatalities in the mines of Ontario for 1911 were due to explosives. The report further states:

"There has never been in Canada any legislation dealing with the inspection of explosives, which is a matter coming within the jurisdiction of the Federal government. At present anyone who has a substance that will explode may sell it, if he can get a buyer. Before the quality of the explosive is proven accidents may result. It is not only the small dealer who needs inspection, but also the large producers. In the competition for making sales and the desire for large profits, the grade of the explosive may not be kept up to the standard. Improper mixing, improper proportion of ingredients, improper packing, all tend to render the explosive unsafe and to increase the accident rate. Old explosives that have been in storage for more than a year are sometimes shipped into the less accessible camps in the winter time, and have to be used by the mining companies during the summer, as no others can be obtained. When an accident occurs now from an explosive there is no way by which this explosive may be thoroughly tested to ascertain wherein the fault lies."

"We regret to note that the session of the Dominion parliament has come to a close without taking up the question of the inspection of explosives. This neglect is inexcusable. Even while parliament was in session the country was shocked to hear of a premature explosion near Fort Frances, where some fourteen men while engaged on railway construction lost their lives.

"We would urge that the explosives bill be prepared during the recess and brought up at the next session at the earliest possible moment. In the meantime all arrangements should be made by the mines branch to have the bill brought into operation at an early date after its passage."

WANTED:

We have an immediate purchaser for one or two good lots in Sections Five and Six. Submit your listings.

For Sale Lot 40, block 16, sec. 1. Price \$6000. \$2500 cash, balance 12 and 18 months. Look this up.

DR. NESBITT TO FACE TRIAL

Willing to Waive Extradition and Return to Canada in Custody—Greer, Not Satisfied, Insists on Examination.

Chicago, April 29.—Dr. Beattie Nesbitt, who is under forgery charges in connection with the Farmers' Bank of Toronto, has declared his willingness to waive examination before United States Commissioner Foote and return to Canada to face his accusers.

This arrangement is not satisfactory to W. D. Greer, of the Investigating department of Ontario Provincial Police, who insisted that Nesbitt be examined. Mr. Greer announced that if Nesbitt was dismissed by the Federal commissioner he would rearrest him on a warrant charging him with making false and deceptive statements to the Canadian Minister of Finance while he was president and a director of the Toronto bank.

It was expected that the Canadian physician-banker would go before Commissioner Foote on Saturday and declare his willingness to return to Toronto.

For row boats and launches telephone 320 green. Davis boat house.

WHITE SLAVERS AND TITANIC

Ghouls of New York Dens of Iniquity Even Harrassed the Newly Landed Women Waifs of the Disaster.

New York, April 29.—Even the immigrants from the Titanic's steerage have not been exempt from the lures of New York. Mrs. Edward R. Hewitt, chairman of committee, has made the following statement:

"A thing which is gratifying and for which we are thanking God is that we lost none of the girls in our care. We found in the confusion five or six men at different times trying to lure away innocent girls who could speak no English and were easy prey for the plausible white slaver.

"We would see one of these men talking to a fresh faced girl and all we had to do to scare him off was to ask him whether he knew the girl or was a relative.

"Each proved his cowardice by hardly answering and slinking off in the dark. Doesn't it seem really that at least in this instance these shameful creatures might have recalled some slight bit of self respect and human consideration."

All those who expect to take advantage of the railway excursion to Terrace on May 24th are requested to make reservations at McCaffery & Gibbons or the Grand Trunk as early as possible.

MUSICIAN HEROES

Musical Organizations All Over States Pay Tribute.

New York, April 30.—Orchestral and other musical organizations throughout the United States are holding meetings to pay their tribute to the bravery of the musicians of the Titanic's band, who went to their death playing.

KEEP OUT!

"KEEP OUT!" used to hang as a sign on every factory door. The old idea of secrecy in business made it seem a crime to show outsiders processes, materials, and methods of manufacture.

Now the white light of publicity is being let in by those who depend on public favor for business profits and business growth. The "keep out" sign is disappearing from factory doors and the "welcome" sign is taking its place.

Candor and honesty form the backbone of modern Advertising. Men tell the truth, and it pays. Modern selling relies more and more on the confidence and good will of the buyer.

To-day, eyes are too sharp and intelligences too keen to make deceit possible. Absolute frankness in Advertising is the straight road to confidence. The public demands the light; it abominates and fears darkness.

To-day, many canning factories, packing houses, bakeshops, and public kitchens welcome visitors, concealing nothing.

The public may overlook, but does not forgive, a lie or an abuse of its confidence. The public regards with suspicion those who attempt to serve it in secrecy and silence. The public is repelled by juggled facts or befogging words. The public rewards with its favor and money those who tell it the truth. It walks and shops where the light shines and where the paths are straight.

Throw on the light!

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.
