EDITORIAL

DAILY EDITION THURSDAY, NOV. 13, 1941.

Dictatorship Results . . .

When Harry Hopkins, special representative of President Roosevelt, was visiting Russia recently he noted several times how dictatorship worked. Here is what he says in regard to evacuating:

"In Moscow there is no problem of evacuating children and the aged and the sick. They're evacuated. In Moscow every able bodied man, woman and youth has a specific job to do, and they do it and like it. It's somewhat different in London. I imagine it would be different in New York too. Stalin speaks and that's the Russian law. I have never dreamed of such a concentration as I saw in Moscow." And again:

"When Moscow or any other Russian city blacks out, it blacks out. You don't merely pull the curtains. The chances are you won't have curtains in Russia. But curtains or not you turn out the lights. In London if the police or an air raid warden sees a glimmer in your window he taps on the door and reminds you that there's a raid on and that you haven't closed your curtains tightly. In Russia (and I suppose it's the same in Berlin) he taps on your door but not to tell you that he can see a light from below. He's more apt to take you to jail."

Bomber Command . . .

Those interested in the Air Force will be interested in the publication "Bomber Command," which is the Air Ministry's account of bomber command's offensive against the Axis. It is well illustrated and contains a vast amount of information in regard to operations of the Royal Air Force. It is published in Canada by the Queen's Canadian Fund for air raid victims and the net proceeds will be devoted to the fund.

Canada's Banks

(Continued from Page One)

year are estimated at $1,450,000,000," he emphasized, "her total federal revenues, mostly from taxes, are estimated at $1,500,000,000. Thus the people of Canada, this year, are paying cash on the barrelhead for their part in the war, plus $50,000,000 more toward the ordinary running expenses of the country."

The total cost of war-and-non-war expenditure this fiscal year would be $2,820,000,000, of which approximately 53 percent would be paid out of taxes and other federal revenue.

Higher Than Australia

In the fiscal year 1939-40 the Dominion financial outlay for all purposes was only 13½ percent of the national income—this year, 47 percent. Some figures for other countries, which, he said, were not exactly comparable but rather illustrative, showed ratios of war expenditure to national income of about 45 percent in the United Kingdom, 25 percent in Australia and "probably 20 to 25 percent in the United States."

Mr. Jaffray completed his reference to war effort by pointing to the $2,400,000,000 worth of contracts led by the Department of Munitions and Supply as one of the greatest indices of the magnitude of Canada's wartime expansion and concluded:

Confident of Victory

"This is an effort of which Canadians can well be proud. In the armed forces, in manufacturing and production and on the economic and financial fronts, Canada is contributing heavily to the defeat of Hitlerism. A year ago in my address I expressed confidence in the outcome of this war. I have not in any way changed my views—but we are not through yet and before the end we shall all have to make much greater efforts and greater sacrifices than we have made hitherto, and the sooner we face these facts the sooner the war will be ended."

In his review of bank figures the President made comparisons as follows: — Total deposits of all kinds at the outbreak of war: $3,095,000,000; a year later $3,142,000,000; August 31, 1941, $3,542,000,000 ($311,000,000 of the latter figure due to temporary government balances arising from the Victory Loan). Balances with the Bank of Canada, cash and other immediately available assets: August 31, 1940, $640,000,000; August 31, 1941, $663,000,000 (percentage of total liabilities 17.7 percent, "showing," said the president, "that the liquid positions of the banks has been well maintained.") Current loans to the public: at the outbreak, $826,000,000; a year later, $939,000,000; August 31, 1941, $1,153,000,000, (an increase of $113,000,000 in the first year of the war and a further $214,000,000 in the year ended August 31, 1941). Short term Dominion and provincial securities (maturing within two years) held by banks: at the outbreak, $443,000,000; a year later $700,000,000; at August 31, 1941, $839,000,000.

Cash, and quickly available assets in Dominion and Provincial, Municipal and Industrial securities in Canada and elsewhere increased from 67 percent of total liabilities to the public a year ago, to 69 percent at August 31, 1941. The figure was 70 percent at the outbreak of war.

KISS YOUR TIRED FEELING GOODBYE!
Pepless Many Suffer Low Blood Count—And Don't Know It.
The baffling thing about low blood count is that you can weigh about as much as you ever did — even look healthy and strong, yet — you can feel as if you had lead in your legs, dopey, tired and pepless.
Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you going power.
Get Dr. Williams Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams Pink Pills today.

Old established Life Insurance Company seeks keenly energetic, well acquainted, ambitious man between 28 and 40 to sell Insurance and Pension Plans. Position requires man with personality, also demands more than the average degree of hard work combined with study. Remuneration salary and commission basis. DRY DOCK IS WINNER

In the Intermediate Basketball game played on Saturday night, Dry Dock Steel Workers managed to squeeze out a 45 to 44 victory from the proud High School squad.

Dry Dock was lacking substitutes which was a handicap for them.

High School squad led the play up to the last few minutes when Dry Dock came from behind a 42 to 38 score to win 45 to 44.

It seems the tussle for the Intermediate cup will be between the Dry Dock and High School. Right now the Barons need some- ne to strengthen their defence.

Teams were as follows:

High School—Arney 8, Long 6, Gurvich, Alexander 2, Vuckovich 4, Lee, MacDonald 10, Santerbane 14, Postuk.

Dry Dock—Montesano 9, Grimble 8, Pavlikis 16, Sheddon 8, Knutson 4.

Referee was Dominic Montesano.
