Queer but true :: if you don't really enjoy your breakfast, your system can't get from it the quick start you need:

So it's well to remember that Kellogg's Corn Flakes do the three important things every breakfast should; (1) Proven first in flavour*, they tempt your appetite. (2) Jam-

packed with carbohydrate 'fuel' they start you quick. And (3) they help keep you going. Ready in 30 seconds, no pots and pans to clean! Get several packages tomorrow! And, note for husbands away from home, insist on Kellogg's in the wax-wrapped individual package. Made by Kellogg's in London, Canada:

*Housewives voted 5 to 1 for Kellogg's as against any other brand of Corn Flakes when asked "What ready-to-eat cereal is your family's favourite!" And here's what Mrs. Mabel Robbins, Head Dietitian of Honey Dew Ltd., says after an impartial taste test in which she sampled the four leading brands of corn flakes: "No one knows better than a dietitian the importance of tempting flavours. So, I was glad to make this impartial test. The sample I unhesitatingly chose for flavour was the

sample which proved to be Kellogg's."
