Newly Appointed Attorney General Breaks With Premier-Wants Hart And Pearson

VICTORIA, Nov. 19: (P-Norman) Whittaker, appointed attorney, general in the Pattullo govern-! ment less than a week ago, today resigned the portfolio, saying that, when he was sworn in, he believed John Hart and George Pearson would retain the portfolios of finance and labor respectively.

In his letter of resignation to Premier Pattullo, Mr. Whittaker said: "With a government so constituted I thought you would be able to command sufficient support from the Liberals and Opposition groups to retain the confidence of the public and provide the people of the province with good wartime administration."

Mr. Hart and Mr. Pearson having since resigned over the coalition issue, Mr. Whittaker said: "With the loss of these two cabinet ministers, the position has changed. I feel that any attempt to carry on under the present setup might very well result in another election which must be avoided at all costs."

NEW NAZI OFFENSIVE ON

LONDON-With freezing weather paving the way for the movement of mechanized forces, the final Nazi offensive against Russia has commenced, British military observers believed today. Moscow, however, reported that Red armies had hurled the Germans back further on two sectors of the Moscow front, inflicting heavy casualties and capturing much of the enemy equipment. This was accomplished in spite of continued heavy German reinforcements. In the Donets Basin area the Soviet forces were holding their own but it was admitted they were still getting the worst of it in Crimea, having retreated across Kerch Straits with all their equipment intact. In Berlin it was announced today that German bombers had attacked Moscow and Leningrad, leaving large fires in their wake. Roads and railways, where Russians were moving forces by night, were also attacked, the Nazis claimed.

R. A. F. IS ACTIVE AGAIN

LONDON-The Royal Air Force has attacked objectives in northern France as well as enemy shipping in the English Channel. Naples and Brindisi were also bombed during the night, it being the second successive night of attack on Naples.
