let this happen

It hasn't happened. It could happen. Unless we continue to decrease our private consumption of gasoline by 50%, it may to drive slowly. happen.

With tankers diverted for overseas service, Canada is faced with an acute shortage of gasoline and fuel oil so vital to the Commonwealth Air Training Plan, our mechanized army and our navy.

The Government believes that every Canadian would gladly forego driving altogether rather than see these fighting units suffer. But the Government doesn't ask you to give up driving; it asks you

only to be sparing of your gasoline. It asks you to drive less—to drive carefully—

Now is the time to act. Do your part by reducing your gasoline consumption by 50%. Pledge yourself to go 50-50 with our fighting forces . . . and follow the 17 easy ways toward this saving listed here.

It is also vitally important that you reduce the use of domestic and commercial fuel oil.

REMEMBER:

The slower you drive, the more you save!

(Approved by Automobile Experts)

Reduce driving speed from 60 to 40 on the open road.

Avoid jack-rabbit starts.

Avoid useless or non-essential driving.

Turn motor off when not in use, do not leave idling.

Don't race your engine; let it warm up slowly.

Don't strain your engine; change gears.

Keep carburetor cleaned and properly adjusted.

Tune up motor, timing, etc.

Keep spark plugs and valves clean.

Check cooling system; overheating wastes gasoline.

Maintain tires at right pressure.

Lubricate efficiently; worm engines waste gasoline.

Drive in groups to and from work, using

cars alternate days.

For golf, picnics and other outings,

use one car instead of four.

Take those short shopping trips ON FOOT

and carry parcels home.

Walk to and from the movies.

Boat owners, too, can help by reducing speed.

Your regular service station man will gladly explain these and other ways of saving gasoline. Consult him.
