S. S. CAMOSUN IS ALL RIGHT

Papers in the South Have Got Hold of Shipwreck Yarn of Her —Facts Made Known in Rupert.

Victoria, May 10. — The Camosun struck a submerged rock today at Dall Patch buoy in Seaforth Channel, near Bella Coola, while on her way from Vancouver to Prince Rupert. No particulars are available yet as to the damage done. Many passengers were on board, but all are safe.

Above note from the Vancouver Province has been made much of to the extent that the help of the steamer Salvor was offered the Camosun by wire from Vancouver. There is, however, nothing the matter with the "Old Reliable." She touched a snag or submerged substance probably drifting, and aerographed other boats to look out. Thus the news got south that she was injured. Information was sent from Rupert by J. H. Rogers that she is all right and proceeding on her trip safely.

UP TO OUR DR. REDDIE

Interesting Congress on Municipal Hygienics to Be Held in September — Dr. Reddie as Health Officer Is Invited.

Washington, May 15.—Preparations are being made to secure a very general participation by the health authorities of all the provinces of Canada in the Fifteenth International Congress on Hygiene and Demography, which meets in Washington, September 23-28, under the auspices of the United States government. Dr. John S. Fulton, secretary general of the congress, has just received advices from Dr. Frederick Montizambert, director general of public health, Ottawa, Canada, that invitations have been extended to all provincial boards of health and that in each case the executive officer was requested to distribute the information relating to the congress and the invitation to municipal health officers.

In addition, special invitations have been extended to the University of McGill, Montreal; Toronto University, Toronto; Laval University, Montreal, and Queen's College, Kingston, Ont.

The importance of the forthcoming congress to municipalities in particular was well indicated in one paragraph of a letter written this week by Dr. Fulton, when he said:

"The broad international scope, the distinguished character of the foreign representation, the governmental auspices under which it will be held, all insure that this forthcoming event will be the most important and impressive of its kind ever held in this country. To be in attendance at the congress, therefore, is an opportunity for obtaining a new viewpoint with respect to public health which after next September will in all likelihood not occur again in this country within a generation. Failure to attend on the part of a public health man will constitute an injustice to himself and a misfortune to his locality."
