TACOMA BALL CLUB MAY DIE

Bad Weather and Lack of Interest in Team May Cause President to Ring Down Curtain This Week.

Tacoma, May 16.—Tacoma's baseball club is broke. Today is pay day and there is not enough money to half pay the players. The life of the club is in great danger, and unless Tacoma fans and citizens come to the rescue today President A. E. Rothermel says he will have to ring down the curtain.

Rothermel started the season on a shoe string. Bad weather produced a deficiency in the finances which the merchants and stock holders had not made up. Today Rothermel threw 3,000 booster tickets on the market, at \$1 each, good for one grand stand admission, in a hurried effort to meet the payroll.

The Rush of Grain.
Stored in boats, elevators and cars at Fort William and Port Arthur, something like forty million dollars' worth of western grain has been awaiting the opening of navigation at the head of the Great Lakes. Behind it in the interior, elevators of the grain growing provinces and in farmers' hands are at least twenty million bushels of wheat alone that during the next four months must come down the lakes or over the single C. P. R. track that is at present the sole connecting railway line between Eastern and Western Canada.

The task is a colossal one. The results will be colossal also. There are not less than sixty million dollars invested in the grain at the head of the lakes and at interior points that will be released as the wheat reaches the purchaser. Much of that money this year will not be available for general mercantile or financial purposes. Most of it will have to be returned to the west before long to finance the purchase and transportation of the crop that is already in the ground. The general effect, however, of turning Canada's wheat into money must be good for business all round, even if it does not increase the capital available for eastern trade expansion.

The great blockade of 1914-15 is broken. Its lesson is writ large. The railways must strain every nerve to put themselves in a position to ship grain from the west by rail steadily all the year round to the Atlantic seaboard, and to the Pacific also when the Panama Canal is opened.

Hot weather enjoyment! Ice cream at Keeley's.

Service Must Speak

A STORE is almost human. It is full of temperament. It affects each customer with the composite personality of its management and staff.

There are stores and stores. There are "grouchy" stores and "smiling" stores. There are flip-pant stores and dignified stores. And the peculiar thing about each is that the goods or the prices have little to do with the store's temperament. It is the personality of the store that colors and defines the character of the goods from the customer's view-point and wins or repels approval.

Stores that honestly try to serve their customers best simply can't help advertising. It is the way of human nature that when we have spent the best of our brain power and physical and financial resources in building up something worth while, our enthusiasm bursts forth into publicity. We simply cannot restrain the desire to tell others about it.

The temperament or personality of a store is vividly expressed in its face. The face of a store is its advertising. You can judge a store by its advertising the same as you can judge a man by his facial expression.

The service store is the "serving" store. It is also the honest-advertising store. By this, you may know it always—anywhere.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.
