Fighting Side by Side . . .

For the past day or two Royal Air Force has been Three Killed fighting with the Russians, all previous help to Russia being in the form of extra pressure on Germany from the west. Already a number of German planes have been shot down and, when a few more squadrons reach the Friend of Local Man Gets Home Russian lines and get accustomed to the conditions, the topography and all the differences between flying there and on the British side, they should be a very great help to the Soviets.

Oil Controller Answers Critics . . .

The Canadian oil controller has answered his critics hit from a German bomb killing in an address before the Purchasing Agents' Association his mother, father and younger at Montreal who said in part: "Much has been said in brother. Death was evidently inthe press during recent months concerning the tempor- stanteous and they never knew ary shutting of four Turner Valley wells. These wells what struck them.

The writer of the letter says were required to be shut in by the Petroleum and Natural that everybody there is very brave Gas Conservation Board commencing early in June, the and "there is no doubt that Hitboard claiming that their past production had consider- ler has bitten off more than he ably exceeded the allowables set by the board. This was can chew if he thinks he can beat an act absolutely of the Conservation Board and had us by bombing."

The letter states that in Belfast nothing whatsoever to do with the oil control. At no they have been short of nothing time has the oil controller endeavored to interfere with in the way of food. The only the function of the Conservation Board except to ask scarce thing just at the time is the board to add quotas to the conservation allowables eggs. set by it in order that we can get the maximum of bil one a week. Otherw from the field without undue waste. Every barrel of oil that we can get from this field we will take and we can

Tax Sale Almost Disappearing . . .

An indication of what the condition of the city is like is seen in the almost total disappearance of the annual autumn tax sale this year. So far there are thirty lots remaining on the list but presumably the payment of the taxes would withdraw these or at any rate the owners! might buy in the lots at the sale. Most people will want to keep their properties on a rising market. Yesterday while announcing that thirty lots were to be put up at tax sale next week we also told of more than thirty lots already rverted being acquired from the city for building purposes.,

British Cost of Living . . .

Evidently due to the success in fighting the Battle of the Atlantic, the cost of living in Britain is decreasing. It is announced that the price of bread has been reduced a half penny a loaf and that the cost of fish is down. Quantities of bacon and canned fish have recently arrived there from Canada.

Naturally the British are reluctant about boasting of the winning of the Battle of the Atlantic, but there is no doubt now that they have decreased to a very large extent the risk of shipping goods from this continent to Britain.

Letter Box

Editor, Daily News:

I am a stranger in your city and do not know what makes the wheels go round. However, I always take an interest in my country or town, wherever I may

In regard to the Dominion situation and the street gossip, 1 have only to say I have not forgotten the last war and the Union government of that day. I admire King for having the "guts" stand on his own feet and take the blame or credit of his action instead of forming a union government for an alibi. I do not think everything he does is the best, but it is a big job and he has to depend on his assistants who are also human. I doubt if the "graft," if any, is equal to the last possible. Especially the board is war, but there is certainly a large! amount of inefficiency and waste. What can be expected of inexperienced men on a new job? know of plenty of inefficiency in all our regular government departments which have been carrying on since Confederation and should be experienced by now. So what can one expect in a ne department such as war, which is othing but waste? Human na ure being such as it is, it does democratic form of government-able. and I fear under any other as well. One surely does not think that Hitler and his fellow bandits are not "getting theirs."

"You get WHEAT GERM as Nature provides it" Dietetic research has shown that the Wheat Germ helps con-

vert food into energy, stimulates the appetite, and is essential to normal growth. In Nabisco Shredded Wheat you get Wheat Germ as Nature provides it, because this cereal food is made from unmilled 100% whole wheat. You also get generous amounts of protein, carbohydrates, phosphorus, iron. Millions of people, especially children, have benefited by the habit of eating a whole wheat breakfast of two Nabisco Shredded Wheat with a cupful of milk, and fruit if desired. Ask for this famous whole wheat food by its full name, "Nabisco Shredded Wheat."

Attention Motorists

In the course of the last two months we have reorganized our service department under the capable management of Colin Miller. We have a complete new staff of first class mechanics and are in a position to render the motoring public of Prince Rupert the very best in automobile repair service. Our service charges will be based on pre-war Flat Rate or \$1.50 per hour. This rate of service

charge is still 25% lower than that charged by leading garages elsewhere. To our old friends and customers we extend our thanks with the assurance that our service will warrant their continued patronage. To those we have not had the opportunity to serve, we extend
