VICHY ARMY

LONDON, June 9: (CP)—British and Free French Forces, with converts from the Vichy cause swelling their ranks, have captured Tyre and driven to a point about forty miles from Damascus and Beirut, it was reported today. Reports from the fighting zone indicate half-hearted resistance by the defenders of Syria and Lebanon.

The Allied forces today had crossed the River Litani in the coastal sector where Beirut is the main objective while deeper inland the advance had carried beyond a line between Ezraa, Sheikh, Mikine and Kuneitra, the Middle East command announced.

Swarms of aircraft are supporting mechanized forces.

Fall of Damascus, it was thought, might occur by nightfall and indications are that Beirut, also being attacked by the sea, might be taken by the British in short order.

Heavy German reinforcements were reported being moved today from Greece to the Island of Rhodes in the Dodocanese group.

It was also reported today that Nazi parachutists had commenced arriving in Syria.
