Reversion to Savagery . . .

The German method of executing hostages, men who had nothing whatsoever to do with the crime which their deaths are supposed to expiate, seems like a complete reversion to savagery. To pick up a score of men and shoot them because some other person shot somebody does not seem reasonable. But nothing in war is reasonable. The whole business is savagery. It is too bad that in this so-called enlightened age we should have to revert in order to defend ourselves.

Sees Crack Coming . . .

One of the radio commentators, broadcasting Wednesday night, expressed the opinion that the Axis powers were beginning to crack and that anything may be expected in the near future. We hope this is not just wishful thinking. If the people of some of the occupied countries of Europe find themselves hungry this winter, and if the Germans are so short of food that they are really uncomfortable, we may expect something to happen, but not otherwise, we think.

Coffee House Habit . . .

A number of Prince Rupert's young business people are developing the coffee house habit. They drop in to their favorite coffee shop in the middle of the morning to drink a cup of coffee and talk over the news of the day. It is the revival of an old habit and makes a break in the morning that is very pleasant. It differs from the beer parlor habit in that the habitués are not tempted to drink again and again.

A local man tells of how one single group could always be found in a coffee house in the city of Cardiff. The place served a coffee that was much better than any other in the city and became well known for this brand of refreshment. Men from all around the country dropped in there occasionally and drank a cup of coffee, usually standing at a counter, stopped to chat a few minutes and passed on.

All Out Aid . . .

The Moscow conference has ended with Britain and United States promising substantial aid to Russia and laying plans as to just how this will be done. Naturally the conference is not publishing its findings, but it is evidently quite satisfactory to all concerned. Airplanes will be among the large contributions and arrangements have to be made for provision of ample facilities for landing fields, machine shops, etc., so that there would be no confusion that might end in catastrophe.

"... handy to have when we want to retire ..."

Mrs. Younger: "We're really asked to do very little when we're asked to lend our money, don't you think?"
Mrs. Elder: "It is little . . . especially when we consider how others are suffering."
Mrs. Younger: "And we are able to lend in such small sums when we buy War Savings Certificates . . . everybody can do it . . . but do you think such small savings are worth while?"
Mrs. Elder: "Indeed they are, when we are all in it. I'm not good at arithmetic, but I realize that the individual effort of small investors, added together, can provide hundreds of millions of dollars for war needs. That's a lot of money."
Mrs. Younger: "It is worth while, when you figure it up like that, isn't it?"
Mrs. Elder: "Yes, it is, and at the end of seven and a half years we get \$5.00 back for each \$4.00 we invest . . . money that will be handy to have when we want to retire."

The help of every Canadian is needed for Victory. In these days of war the thoughtless, selfish spender is a traitor to our war effort. A reduction in personal spending is now a vital necessity to relieve the pressure for goods, to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make, demands this self-denial of each of us.

SPEND LESS—TO BUY MORE WAR SAVINGS CERTIFICATES

It's interesting to know when reading the Daily News that the people of the whole district are doing the same.
