Scorched Earth

Many people have asked what is meant by the "scorched earth policy" adopted by the Soviet government. We assume that most people know but for those who do not our understanding of it is that when the Russians retreat they leave nothing behind that can be used by the enemy except the scorched earth. Everything is burned or otherwise destroyed. All supplies used by the enemy have to be imported. Houses have to be built. The country is a desert, uninhabitable. The farms are deserted. This is not so bad in the summer but in the winter it will! be terrible for the invaders. If they could capture Lenin-; grad and quarter the men on the inhabitants, it would not be too bad. Evidently the plan of the Russians is to destroy the city in case they have to leave. That was what was done when Moscow was invaded by Napoleon. It is a terrible thing to do but is effective. What use to the enemy is a burned city?

Civic Centre Helped . . .

The recent carnival came fully up to expectations so far as finances are concerned. Four thousand dollars added to the present nest egg of approximately nine thousand gives the fund quite an impetus and it is hoped that now something may be done toward getting started on the new building. Such a place is needed just now, perhaps worse than it will be after the war. We congratulate the young men of the city on the excellent showing they have made.

Wartime Production . . .

According to the minister of labor, Hon. Norman McLarty, Canada will not reach the peak of her wartime activity until well on in next year. In order to meet · the demand for labor to carry out this work the utmost is being done by industry to train men for the work they are asked to undertake. In spite of the efforts made to carry on the work expeditiously and well there are delays. In the first six months of this year, according to figures supplied to the Department of Labor in Great Britain, the loss due to strikes and various other causes amounted to 41 in every thousand. In Canada the loss was 54 in the thousand and in the United States the loss was 381 to the thousand. This speaks very well for Canada, because in Britain, while the distractions are greater, the people are kept constantly on edge and this must act as an urge to carry on to the utmost capacity knowing that production of work materials is a matter of life and death.

The Daily News is a member of the Canadian Daily Newspaper Association, of the Canadian Press and of the Audit Burgau of Circulations. It is the only paper north of Vancouver and West of Edmonton holding membership in these organizations.

BROOKLYN

Defeated By Cincinnati While Cardinals and Giants Tie-Dodgers Still Lead

Dodgers four to three in an eleveninning thriller here yesterday while the New York Giants and St. Louis Cardinals had a one to one deadlock at St. Louis, the game being called in the tenth on account of darkness. The National League leadership of the Dodgers was reduced to a game and a half.

Where does the money come from to wage this War-to build the ships, the planes and tanks we need to "finish the job?"

Much of it comes from the savings of ordinary men and women-the thrifty people of Canada-the savers. These are the people who buy Victory Bonds and War Savings Certificates, who pay their War Taxes on the nail. Never before has personal thrift been so vitally necessary. Watch your spending.

Every dollar you can spare is needed now to arm and equip our fighting forces—to win this

This Book will help you save. The Royal Bank Family Budget Book shows you how to budget your income, how to save by planned spending. Ask for a free copy at your

BILL: "It sure would be ... and while you are buying War Savings Certificates

you are helping to Win the War." SAM: "Sounds good, Bill. Think I'll see

the foreman and tell him to get me more of those War Savings Certificates every week. I'm making mighty good money now. It'll be good stuff to have coming in later on."

The help of every Canadian is needed for Victory. In these days of war the thoughtless, selfish spender is a traitor to our war effort. A reduction in personal spending is now a vital necessity to relieve the pressure for goods, to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make, demands this self-denial of each of us.
