Laval Out For Nazis

French Must Accept Collaboration, New Premier Declares—Bitterly Assails Great Britain

VICHY, April 21.—Premier Laval, in a broadcast last night, told the French people that they must accept collaboration with Germany. He bitterly attacked Great Britain which he accused of leading France into battle and then deserting her. Now, said Laval, referring to British air attacks on occupied France, she would complete the destruction of French homes.

No foreign influence, declared Laval, would swerve him from participation in Hitler's new order. Bolshevism must be completely wiped out in Europe.

France's declaration of war against Germany in 1939 Laval described as a "crime."

He did not mention the United States in the course of his broadcast.

Today, in his first message to the armed forces, Admiral Jean Darian said: "I can rely upon you as you can rely upon me to continue further on the path of honor."

Russo-German War— SMOLENSK IN RANGE OF REDS

Furious New Russian Attacks To South of Leningrad and Also Against Finns

HEAVY NAZI AIR LOSSES

MOSCOW, April 21:—The German air force has been suffering heavily in the air war over Russia which has been increasing in intensity all the way from Murmansk in the far north to Crimea on the Black Sea to the south. From March 1 to April 15 it is estimated that no less than 1500 Nazi planes have been brought down, one thousand of these in March. Yesterday it was reported that fifteen of an attacking force of seventeen German planes at Murmansk had been brought down while in the Crimea eight enemy machines were bugged.

LONDON, April 21 (Canadian Press)—Soviet long-range artillery is reported to be drawn up within range of Smolensk, greatest German military base in Russia, 230 miles west of Moscow. Furious new Russian attacks are also reported to have been launched along the Volkov River front, south of Leningrad, and against the Finns on the Svir River, between Lakes Ladoga and Onega.

The Germans are reported to be throwing all available might of their air force into support of counter-attacks to prevent the Red Army from gaining a solid foothold west of the Volkov before the ice melts and the stream becomes a great barrier protecting the flank and the rear of German siege forces before the old Czarist capital. Seventeen German strongholds west of Leningrad have been captured by the Russians. Soviet paratroops have been landed in the rear of German lines.

The Russians claimed to have advanced two miles against the Finns at one point after battering down new defence works.

Both Russians and Germans are silent about the precise position in the Smolensk region but Reuters' dispatches said that General George Zhukov's troops were advancing from the northeast and were within eighteen miles of the old Czarist capital.

Kuibyshev reported today that, with the front a morass of mud and slush, big armies of Russia's western front continued local operations today without appreciable change in positions. After the spring thaw comes, it is admitted the Russians will be at a disadvantage.

Many friends of the family in Prince Rupert have learned with feelings of deep regret of the death which occurred suddenly at her home in Brooklyn, New York, at midnight Saturday of Mrs. Winnifred Goldsborough Wood, wife of William Webster Wood and only daughter of Mr. and Mrs. Frank Dibb of this city. She succumbed in her sleep to a heart attack after several days of illness. However, there was no idea that the end was so near and advice of her passing came as a severe shock to the family here. Mrs. Wood had not been in good health for a year following illness with double pneumonia.

Deceased was thirty-six years of age and was born in Leeds, England. She was brought to Canada at the age of six months, coming to Saskatoon in 1907. She completed her schooling here, taking senior matriculation, and then went in training for a nurse at the Prince Rupert General Hospital. After graduation she engaged in private nursing. In 1931 she was married at the Little Church Around the Corner in New York City to Mr. Wood, then stationed at Philadelphia as representative of the Canadian Fish & Cold Storage Co. Besides her mourning husband and parents, Mrs. Wood is survived by a little daughter, Frances, aged seven. George Dibb, in the naval service here, is the only brother. Deceased was a member of the Order of the Eastern Star and was active in United Church work in Prince Rupert.

Yenangyuang Capture Considered Important Mopping Up Japanese

British Tanks and Chinese Infantry Co-operating—London Warns Against Undue Optimism—In Philippines and New Guinea

LONDON, April 21: (CP)—Recapture of the Burmese oil centre of Yenangyuang by Chinese troops operating with British armored units was confirmed today by a British communiqué issued at New Delhi. With Chinese infantry and British tanks co-operating, this represents the Allies' first important victory in Burma. London observes, however, inclined to discount undue optimism unless air supremacy can be definitely established. Heavy rains within the next three weeks or so in Burma will probably make land fighting almost impossible. Heavy fighting meanwhile continues to go on around Yenangyuang with the British tanks and Chinese forces seeking to mop up isolated Japanese troops which have been cut off. Chinese forces are reported to be still retiring slowly 150 miles from Mandalay. There were no reports of activity today on the Sella and Sittang Rivers.

In the Philippines, the Japanese have brought dive bombers into play for the first time against the American defenders of Corregidor fortress, the big guns of which have been hitting Japanese shore batteries and enemy troops on Bataan Peninsula. Nine Japanese heavy bombers attacked Port Moresby on New Guinea Island today but the formation was broken up and there was no report of damage or casualties.

Various phases of the liquor situation were dealt with by the speakers from the standpoint more especially of the welfare of the natives now resident in the city. The effect of liquor on morals generally was brought out and strong feelings were expressed in regard to the supplying of liquor to Indians.

On being given the opportunity to express their views, the native speakers appealed to their people to realize the seriousness of the situation and do everything in their power to improve existing conditions.
