ACTION IS DEMANDED

Ladies' Orange Seeks Better Protection for Civilians From Japs.

The following letter has been sent by the Ladies' Orange Benevolent Association here to Hon. J. L. Ralston, minister of national defence:

"Within a few short weeks the tragic events in the Pacific have changed the status of Prince Rupert from a city of comparative safety to one that can be considered in imminent danger. As the possibility of an actual emergency increases we are forced to request that you, as Minister of National Defence, take immediate action to safeguard the lives of our civilians.

"As you probably know we are situated on an island connected to the mainland by a railroad bridge. As Japanese cannery workers and fishermen have made the district in the vicinity of this bridge their homes for many summers and know of its vital importance to Prince Rupert, its chances of remaining intact for evacuation purposes are practically nil. You must readily see, then, that if we cannot get away from the Island, we must have some means of protection on it. In view of these facts we do not think that we are asking overly much when we demand that you have suitable air raid shelters. Visitors to our city from war zones in England have repeatedly told us that with very little cost and labor we could have excellent air raid shelters built into some of our many rocky cliffs. One of our schools is especially in need of a shelter as it is just a stone's throw from our local dry dock, which can certainly be termed a military objective.

"We do not think we are asking overly much either when we ask that our A. R. P. be given a little encouragement from our federal government. They are doing a splendid work amid trying conditions. Our sirens, while they can be heard on a quiet Sunday afternoon fairly well, would stand no chance of being heard in a home with windows closed and a radio playing.

"Again we do not think we are asking overly much when we demand that enemy aliens be removed immediately from our coast before we are faced with real disaster.

"We also note that our men in uniform have been equipped with gas masks. If it has been deemed necessary to issue gas masks to our forces, why not to our civilians?

"We think we are really entitled to these few demands and request immediate action. If they are ignored we will be forced to come to the conclusion that you are indifferent as to our safety.

"With every anticipation that immediate action will be taken we remain.
