claimed. The chief compared the be found in American history.

Organized steps which had been Hattie McDaniel. develop scientific fire prevention SHIPMENT methods were described in some SHIPMENT detail by the speaker. Special attention had been paid to seeking out the causes of fire and removing them. With this end in view building methods had to be revolutionized and regulated. Even in Prince Rupert improvement in building conditions could be observed. Mr. Lock compared the

"And now today," said Mr. Lock, "we find that the enemies of hu- Brether and Sister Meet After Not man kind are using fire in any Seeing Each Other For effort to seek our destruction. In watch their own streets and their will spend a month in the city. own roofs. Their weapons are the stirrup pump, water and buckets of sand. They have risen to the suggestion of private fire fighting and watching and so work out their own salvation."

In his demonstration of kindling an incendiary bomb, Mr. Lock used the constituents of magnesium, thermite and aluminum powder with phosphorus as an igniter. He showed how the application water intensified the flame of the incendiary bomb.

The president of the Gyro Club, George Rorie, was in the chair and thanked Mr. Lock for his discourse. New members in the persons of Dr. J. J. Gibson and Alfred Rivett were welcomed. Guests were Lorne Aggett of Vancouver, and M. McCallum of Massett.

Next week's speaker at the Gyro Club will be Dr. Neal M. Carter, director of the Prince Rupert Fisheries Experimental Station.

HOBOKEN, N. J., Feb. 26: -Workers of a local war industry numbering 125 have gone on strike because a foreman used abusive language to them. They are demanding the foreman's removal before they return to work.
