killed in an air crasi sisclosed last night. The Duke was the younges of the King. The British and in a said he was killed by to Iceland when his Duke was the younges Sunderland flying boat creek the north of Scotland. The Duke was born in , the fourth son of the late

King George V and Queen Mother Mary. The brothers, beside the King, are the Duke of Windsor and the Duke of Gloucester. A fifth brother, Prince John, died many years ago. A sister is Princess

The Duke married Princess Marina of Greece in 1934 and they have two sons and one daughter. The third child was born only a few weeks ago.

Kent was closely associated with the Royal Air Force since the war started and last year he was in Canada to visit air training establishments under the Commonwealth air training scheme across the Dominion.

He had previously toured Canada in 1927 with his brother, the then Prince of Wales, later King Edward VIII and now the Duke of Windsor, Governor of the Ba-

The Duke was on active service when the fatal crash occurred in remote northern Scotland. The entire crew of the plane, which was on a wartime mission, died with him, fourteen in all perishing. There will be an Air Ministry investigation although it is already announced no enemy action was involved in the crash.

This was the first Royal Family war fatality in 100 years.

## EATON MEN

Officials of Big Business Concern Looking Over Local Business Situation

Looking into the local business situation in the light of new deelopments here, R. M. Penfold, Mackenzie King today announassistant general manager of the ced the creation of publicwestern division of T. Eaton Co. ity directing body to be known Ltd., and H. L. Westman, manager as the Wartime Information of the company's local store, are Board with Charles Vining, visitors in the city. They arrived newsprint executive, of Montthis morning from Vancouver and, real as chairman, expect to be here for a couple of days or so.

Mr. Penfold had no statement to nake as to what his presence here might imply in a business way.

## LOOKED AT

Property In Telkwa District Attracting Attention

SMITHERS, August 26: - Dr. Stevenson, engineer from the Department of Mines at Victoria, accompanied by James Mollard o Bralorne Mines, spent the best part of a week visiting the new scovery of scheelite on the minng claims owned by Telkwa people and located at the headwaters of the Telkwa River about 35 miles west of Telkwa. They had a hard trip as the trails into that counry are now in very bad shape but they were well pleased with the

showings of tungsten found there. There has been very little develpment work done on the find but t gives indications of being of high grade quality as seen from the samples brought into town.

Dr. Stevenson left Smithers on Tuesday morning for Lac La Hache in the Cariboo to continue his work there which he interrupted to come to the Smithers area to look into tungtsen discov-

### CRISIS FOR STALINGRAD

Important Soviet City in Immediate Peril of Siege Now

MOSCOW, Aug. 26 (CP)-Two successive German thrusts through the Russian lines between the Don and Volga Rivers placed Stalingrad today in immediate peril of siege. As German tanks and other armored machines charged ahead, thousands of Stalingrad workers took arms on the highest west bank of the Volga to help the Red Army defenders. German vanguards reached the flat, sandy plain extending to the Volga just northwest of Stalingrad and porary halt.
