Various Kinds of Work . . .

There are many kinds of war work being done in the to one over Peoples Store. city and it is difficult to give proper recognition to all. One that has proved quite effective was that of the Women's Canadian Club. This organization, in addition to providing a means of dissemibating patriotic sentiment, last fall undertook to gather used woolen material and have it woven into blankets. In all 505 pounds were sent to a factory at Winnipeg where it was turned into 65 blankets—one a woolen travelling rug, another a pure white blanket and 63 colored blankets. These are being held here for the present so that, if they should be needed locally, they would be available for the use of our own people. If they are not needed in or around Prince Rupert they will be shipped to such places as may be selected. By the time they reached Europe, if sent now, the winter would be over. The Canadian Club gave this as a tangible expression of the desire to help with the war work and the ladies concerned are deserving of great praise for their productive effort. The cost of remanufacturing the blankets was \$1.75 each.

Be a Good Example . . .

If the organizations doing war work will let us know! about it we shall be glad to tell about it as an inspiration to others to do something, not perhaps along the same lines but in some way. Example is usually much better than precept.

Poor Reception . . .

For the past week or two radio reception has been very poor in Prince Rupert much to the disgust of the radio fans. Those who live near one of the main thoroughfares find the chief annoyance in the heavy trucks, although the speeding cars also are a nuisance. Many of the new cars are not provided with proper insulation and they prove as big a factor of annoyance as those that have been on the road for years. This is inexcusable. It should be in the interests of manufacturers to keep the cars they turn out as free from being a nuisance as possible.

Meeting of Executive and District Wardens Held Last Night.

In the Canadian Legion rooms last night a joint meeting was held of the executive of the Civilian Protection Committee (A.R.P.) and the district wardens with J. J. Little, chief protection officer, presiding.

Minutes of previous meetings revealed that application for assistance had been made to the municipal, provisional and Dominion governments. Unless and until there were "some teeth" put effective there would still be a New Residence effective there would still be a lack of support. Selfish people must be forced. There was perhaps a large measure of latent support but the shortage of personnel, police wardens, first aid workers, fire auxiliaries, etc., made the burden of those now actively engaged too heavy. In this connection the police wardens will Port Simpson General Hospital. endeavor to conduct a house-tohouse canvass and by personal use as an auxiliary to the hossolicitation endeavor to get a full pital power plant.
