Many At Funeral of Christ Johnsen—Sketch of Career

Funeral services for the late Christian Marelus Johnsen were held Tuesday afternoon at St. Paul's Lutheran Church, which was beautifully decorated and filled with neighbors and friends of the deceased. The services were in charge of the pastor J. H. Myrwang.

Peter Lien presided at the organ. A sextet, composed of members of the Varden Singers, sang one of the old favorite Norwegian funeral hymns "Bedre Kan Jeg Ikke Fare, End At Fare Til Min Gud." Hymns sung by the congregation were "What Friend We Have in Jesus," and "I Know of a Sleep in Jesus Name."

The text of the pastor's message was from Mark, 16: 3-4.

The members of the Church Council and friends served as ushers and pall bearers. They were John Murvoid, Anfelt Antonsen, Peter Leland, E. Evensen, Jens Moen, Hartvik Gulbransen, Ingvar Feness and Gust Mostad. There was a large and beautiful display of floral wreaths brought by the family, neighbors and friends.

In addition, a large number of memorial gifts were presented in gifts of money that will be used to provide some specific part in furnishing the new church. Such articles will be provided as a special memorial of Christ Johnsen who had also served efficiently as a member of the building committee for the church.

Deceased's Career

Christian Marelus Johnsen, whose parents were Johan and Jonette Andersen, was born at Punsvik, near Narvik, Norway, May 4, 1886. He left Norway in 1902 at the age of 18 years and came to Wisconsin where he, as a young man, secured work on farms, and very soon also in other projects that required skill, intelligence and mechanical interest. He soon became a leader in whatever he undertook to do. A short time later he was in Montana, active as a contractor in railroad building. From there he went to Canada and worked in drilling and blasting on the new transcontinental railway that finally reached Prince Rupert. Then he went to Anyox where he soon became a leading figure in building operations connected with the mining industry at that place.

During the last World War he returned to Norway, was married, and returned to Anyox, leaving his young wife in Norway. In 1922 Mr. Johnsen went to Norway again, returning after a few months together with his wife and baby daughter, Mimi. Altogether Mr. Johnsen worked at Anyox for 16 years. During the last 17 years the family has lived in Prince Rupert where Mr. Johnsen and his family have become prominent respected and active in numerous worthwhile endeavors.

Mr. Johnsen was a very capable man in many lines. He was a builder, not only for himself, but for the city, and community as such. He succeeded in whatever he undertook to do. He and his family have been active members and leaders in the local St. Paul's Lutheran Church, where he for many years has been a member of the Church Council and also a member of the Board of Deacons.

For several months it was apparent that both his physical and mental health failed, rapidly and completely. He suffered greatly, especially mentally. He passed away at his home in the early morning of April 18.

Left to mourn the departure of a loving and faithful husband and a devoted father are Mrs. Lottie Johnsen, the widow, and the following children: Mimi, John, Peter, Arne and Clarice.

Three sisters of Mr. Johnsen are living in Wisconsin and Chicago. Relatives are also living in Seattle.

TOLD ABOUT CATHEDRALS

Ronald Bridgett Speaks To Hoc H. Here on Monday

At the regular meeting of the Prince Rupert Group of Hoc H on Monday evening, with Harold Hampton presiding, guest speaker was Ronald Bridgett who gave an interesting and instructive lecture on some of the cathedrals of England and their architecture.

Mr. Bridgett had prepared sketches to illustrate the various types of architecture in regard to the influence of each period and pointed out that architecture combined utility with beauty. Although certain columns, arches or buttresses were of great beauty, they were also integral parts of the necessary strengthening or support of roof dome or wall.

Some very fine illustrations were also shown from books dealing with this subject.

Mr. Bridgett took his listeners back to historic Stonehenge, the Roman period, Saxon, Norman, Gothic perpendicular, renaissance, and in a most interesting manner showed the gradual changes and modifications of course in many cases. In fact most cathedrals combined styles of architecture. Salisbury Cathedral proved the exception, being built entirely in the early English, began and completed 1220 to 1266.

Lincoln Cathedral was particularly mentioned as being one of the most beautiful as compared with some of the finest continental cathedrals.

Mr. Bridgett's audience was only too sorry that this would most likely be their only opportunity to enjoy a glimpse into a very fascinating subject, from one so well versed in the study of such things, as Mr. Bridgett was leaving for Vancouver.
