WOULD EMPLOY PUBLICITY MAN

More Scientific Methods of Advertising Considered Necessary to Keep the Advantages of South Vancouver Before the World.

South Vancouver, June 17.—So that the merits of South Vancouver may be more broadly and scientifically advertised, the employment of a publicity expert is to be considered by the Board of Trade at the forthcoming meeting. The board, it will be remembered, received a substantial grant from the council recently for the purpose of spreading the name and fame of South Vancouver. The circulation of pamphlets, leaflets or booklets is one medium usually chosen by the board, but this is not considered to be nearly as effective as newspaper or magazine advertising. The advertising committee is busy considering the best proposition for advertising South Vancouver. The employment of a publicity manager will be taken up, and it may be that the committee will decide that this is the most modern as well as most efficient method of handling the funds contributed by the council for advertising South Vancouver. North Vancouver has a very able expert, and the fruits of his good work are already apparent.

O'Brien vs. Alaska Barge.
The next case to be held in the Supreme Court will be that of O'Brien vs. the Alaska Barge Company for injuries sustained by the former.

Do you know that there is no better investment in the world?
Our city is growing. The person is blind indeed who cannot see a population here of twenty-five thousand ten years hence. Each year's increase in population will increase the value of Prince Rupert property proportionately. That means dividends if you collect rents; profits if you buy and sell.
