

HOW TO HELP YOUR CLEANER WORK FASTER AND LAST LONGER!

You can do housecleaning faster and better if your vacuum cleaner dust bag is emptied after each use. Excess dust in the bag slows up the air flow and reduces the suction of the cleaner. Also oil your cleaner as recommended by the manufacturer and pick up hair pins and other articles that might damage the fan or clog the brush. Avoid letting the cord become twisted or frayed.

REDDY SAYS:

"Your vacuum cleaner is a valuable investment that may be difficult to replace. Timely repairs will put your cleaner in first-class shape and keep it working for the duration."
