A Fast Disappearing Opportunity

To get in on the ground floor at FORT GEORGE.

Why will Fort George inevitably grow to be a great city?

Because of its strategic location that assures her of a GREAT FUTURE as a distributing centre.

Because there is the centre of the richest mining district in America—the CARIBOO DISTRICT.

Because great areas of TIMBER, 1,100 MILES OF NAVIGABLE WATERS, EXCELLENT WATER POWERS, are tributary to Fort George.

Because there are 250,000 acres of good agricultural lands, open for pre-emption.

Because of all the railroad that are building or that have got their charter to build through Fort George.

Because all the grain of Alberta and Saskatchewan shall be exported through the Panama Canal, which means that all that grain shall have to come to Fort George before reaching either Prince Rupert or Vancouver.

Because Fort George has a better strategic location than Spokane and is the GATEWAY to the Pacific coast of the PEACE RIVER COUNTRY, which covers an area of 3,000,000 acres of the best agricultural land in Canada.

Within a few years Fort George will be where Vancouver and Winnipeg are today. This is the time to act. The man with a prompt decision is the man who wins, and you have everything to win if you buy right now, because this summer will see a great activity at Fort George and the prices will advance rapidly.

HOBBLE SKIRT NOW DOOMED

New Style Is Tight About the Hips, but Falls Straight After That—Famous Fashion King Redfern of Paris Gives Edict.

Paris, June 18.—Once more the question of fashions for women is a subject of controversy in Paris. Mr. Redfern repeats his statement that the hobble skirt must go.

Mr. Redfern says: "There is a distinct tendency in that direction. The Parisienne has abandoned the horror. In tailor made costumes the skirt will be tight around the hips, but, instead of being still further tightened lower down, as in the hobble skirt, will fall straight.

"There will be a much greater change in afternoon and evening dresses. We have not got to paniers, but at the drags and the Grand Prix you will see the new mode in flounces or drapery of lace. Lace especially is one of the features of the coming fashion. The skirts will still be close fitting, but fuller and draped."

A Good Thought

Think not on yesterday, nor trouble borrow
On what may be in store for you tomorrow,
But let today be your incessant care,
The past is past, tomorrow's in the air.
Who gives today the best that in him lies
Will find the road that leads to clearer skies.

—THERE ARE NO "DEAD ONES" HERE—

A CRUEL END FOR A MOTHER

Woman Instantly Killed by Blast—Stump Weighing Four Hundred Pounds Strikes Through Tent While She Toils for Her Babes.

Mrs. Kate Tompkinson, who lived in a tent at the corner of Culloden and Ferris streets, South Vancouver, was almost instantly killed this week by being struck by a huge section of a stump, weighing between three and four hundred pounds, which was blown into her tent by the explosion of a blast about a hundred feet away.

The body was brought to the Municipal Hall in South Vancouver and turned over to the undertakers. Although no inquest has yet been announced, one will almost certainly be held.

The blasting was being done by a gang of municipal laborers engaged in clearing that section and Mrs. Tompkinson was at work in the tent, apparently having received no warning.

The dead woman was about 33 years of age and was the mother of three children, two girls and a boy, the eldest about ten. Her husband is a laborer employed by the municipality and was at work in Ward V. when the accident occurred.

You Do Not Know Where to Invest?

Let us tell you. There should be no difficulty about a matter of this kind if you take the trouble to exercise ordinary care and common sense. You would not select an old decaying city whose pulse has almost ceased to beat, would you? NO, you would put your money into a **Going Concern** where there is **life and hope!**

Well! Why Don't You Try the West?

We suggest the west, because the west spells **Progress!** Here are the cities of the future, where hamlets existed a few years ago. Here are the towns which possess both sea and rail transportation facilities! Here are the towns whose strategical positions ensure them becoming large commercial distributing centres in the near future! Here is **Alberni,** the future Liverpool of Canada.

A Seaport Town of no Small Renown

So situated at the head of Alberni Canal on the west coast of Vancouver Island, its importance as a seaport town cannot be doubted, or too strongly emphasized. This canal opens itself out into the Pacific Ocean, after its land locked course from Alberni, extending for a distance of 26 miles. Its water is of great depth, permitting of safe navigation to the largest vessels plying the west coast, being one to three miles in width. An investment in a place possessed of such enviable features

Must Surely be One of the Best!

Yes! Without a shadow of a doubt it is one of the best! Don't be asleep to these great chances, which do not come too often. Remember, Alberni is at present served by one great transcontinental railway system, the Canadian Pacific Railway, and by the end of the year the Canadian Northern will have completed its track into Alberni. Then will come the dredging of Seymour Narrows, connecting the island with the mainland.

Mail and passengers from the Orient and other routes via the Panama Canal, to be opened next year, will be landed at Alberni, and transported by rail to Vancouver, saving from eight to twenty-four hours to the present route.

ALBERNI therefore is where you should invest.

Lots can be bought for $150, inside the town limits. Easy terms, **10% cash, 5% per month.**

Test it for yourself. Buy a lot today and help to develop the west.
