NOW IS THE TIME---

Give us an order right away for the amount of coal you expect to need next season. This will enable us to meet your requirements now or as supplies arrive.

It is important that you should lay in your coal supply this summer as it is almost certain that the dealers will not be able to cope satisfactorily with the demand next winter.

IT IS NOT HOARDING TO BUY YOUR COAL EARLY (It is also necessary to place your order a day ahead of Delivery)

Arrangements were made for o the mimeographing of certain notes of lectures. These copies will be distributed to the various dis- o tricts. At suitable dates Mr. Davies will visit the different districts of and full discussions will take place on the material in the lectures.

Mr. Davies also spoke particularly on the position of 'Incident Officer." This is an appointment favored by many authorities. A lively discussion followed the presentation of this paper with the final verdict being that such an appointment or appointments here would be of no advantage. If the other papers presented by Mr. Davies provoke as much discussion there is an assurance of sustained and worthwhile interest in local A.R.P. activities. A very hearty vote of thanks was accorded Mr. Davies for his informative and interesting talk.

DUE TO WAR CONDITIONS

Canada will now on, have to depend as never before on the output of her mines to fill the ever increasing demands for coal. Much of this will have to be from Alberta mines, but this will be difficult if not impossible if consumers wait, as in the past, for cold weather before taking delivery.

Do your part in helping to avoid a serious situation, by filling your bin NOW and keeping it FULL.

Stocks of Foothills Alberta, Bulkley Valley and Comox now on hand.
