WEST YORKS COLD STEEL

British Unit Allied With Royal Montreals Has Made New Fame for Itself in Present War

Written for The Canadian Press By CLAUD GOLDING

LONDON, Nov. 26 — In the wilds of Eritrea and the jungles of Burma Britain's West Yorkshire Regiment has lived up to its motto: "Nee Aspera Terrent"—Hardships hold no fears.

At Keren in Eritrea the West Yorks, associated with the Royal Montreal Regiment of Canada, won a victory that set all Yorkshiremen glowing with pride.

The defending Italians had thought the fortress, set 7,000 feet atop precipitous slopes, was impregnable with its carefully prepared defensive positions. Attackers who tried to scale the heights were met by a hail of bombs and intense machine-gun fire. But the West Yorks, with the help of a handful of Indian troops, gained the difficult objective and wiped out the Italians.

Same at Burma

The West Yorks displayed the same mettle in Burma after the Japanese had invested the town of Begu and cut off British troops. Gurkha and Sikh troops attempted to relieve the beleaguered garrison, but were repulsed. Roads leading to the town were blocked by barricades and obstructions, including wrecked tanks and trucks. During a moonless night some tanks in the town succeeded in breaking out and joining forces with those outside. Then it was decided to make another attempt to break the road blocks and the West Yorks made the first assault. It was repulsed but they attacked again and swept away the Japanese and carried the road blocks.

Whifflets From The Waterfront

A notice to mariners issued by the Department of Transport announces a change in the color of the light on the gas and whistle buoy off Lawn Point in Hecate Straits, Queen Charlotte Islands. The flashing white light has been replaced by a flashing red light. It is also announced that a new light has been established off Lawn Point on a cliff southward of the point. It is a flashing white acetylene light, automatically flashed at short intervals, shown from a lens lantern. The elevation is 146 feet and the structure is a white wooden mast with a white wooden day mark, 20 feet wide and 22 feet high, on a former day beacon. The light is unwatched.

A. J. Whitmore of Ottawa, western representative of the Department of Fisheries of the Dominion of Canada and member of the International Halibut Fisheries Commission, arrived in the city Tuesday to confer with local fishermen on various problems.
