EDITORIAL

Booth School Grounds . . .

Undoubtedly an intolerable condition exists in regard to the present condition of the grounds of Booth Memorial School. The board of school trustees is well justified in its discontent over this situation and in its anxiety to have it cleared up with the least delay possible.

The Steel Strike . . .

The Canadian steel strike would appear to be unpardonable at this critical war time. Probably there is no more important war industry than the making of steel upon which so many other phases of the war's prosecution depends.

Meanwhile, it is a most serious thing to have the present state of affairs continue and grave responsibility for some one is to be implied. Certainly to have such a strike going on as that in the Canadian steel industry indicates that in some quarters there is not a proper realization of the seriousness of hampering the war effort.

First Things . . .

At a meeting of a public organization on Monday night we heard the interesting suggestion put forward that public conveniences should be one of the first things that the new city council should provide in Prince Rupert.

The measuring stick of primary importance of projects considered should, of course, be health and well-being of the people rather than mere comfort or convenience. Perhaps looking at things from this standpoint might simplify the decisions as to which are the most important.

Red Wings Now in Second Place in National Hockey League

There's probably a boxing future in Britain for Arnold Hayes and Tony Roberts of the Canadian Army if they want to stick around after the war. If not, they'll probably go just as well in a ring back home.

ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

From a Cat's Point of View

Mrs. Garbutt writes this column day in and day out but once in a while she calls for a little relief. Very wisely she gets me to fill in because, after all, I probably know more about what goes on around the hat than anyone. I watch the activity from all angles—sometimes from the top of the piano or one of the desks and even from the balcony rail. I'm going to write today's article at Marie's desk because this is her afternoon off.

I no sooner get started than in comes Connie McKenzie with that silly pup of hers—a black and white one. I wish I could print what Mrs. Garbutt calls him because I agree with her. He annoys me so when he barks—one of these days I'll educate him with my paw. But I cannot waste more of my column talking about dogs.

Well, if it isn't John David after more movies for the Air Force Construction Camp. I think Frank Ryan is trying to tell him he cannot spare him one tonight. John is not taking "no" for an answer. Will Frank weaken? My guess is "yes". My! My! I have felt so blue lately. That handsome Cliff Perry has been posted south. I first met him when I was only a kitten—away from talking about dogs.

Basketball Difficulty

The basketball outlook in Prince Rupert does not look any too good for the remainder of the season due to the difficulty in obtaining a playing venue. The only hope appears to be with the military authorities and that may not be a very bright one. The Army, having now been given over to the use of the new local reserve unit, is not for the time being at least available for basketball.
