DID YOU KNOW

... that a recent survey indicates that using their eyes in the home 20 per cent more days than a year or so ago? Restrictions in facilities are keeping folks more at home. The suggestions below will help you to have better lighting in your home with a minimum of trouble.

6 WARTIME LIGHTING SUGGESTIONS

1. CLEAN LAMP BOWLS and lamp bulbs frequently. Get 25% to 30% more light from the lamps you have.

2. USE WHITE SHADES or shades with white linings. Repaint them or reline them if necessary. Dark shades waste light.

3. SIT CLOSE ENOUGH to the lamp to get all the light you can give your eyes. A few inches may mean a great deal less light.

4. AVOID DIRECT GLARE from lamp bulbs or bowl, by using shades that are deep enough and big enough.

5. ARRANGE LAMPS and furniture so each can serve two or more people.

6. PLACE EACH LAMP so it puts no glare in the eyes of persons using it.

REDDY SAYS: "Here's another wartime suggestion. Buy all the War Stamps you can. They give you good dividends."
