**"... ALL MEN ARE EQUAL"**

The basis of the people's business

DEMOCRACY is founded on the principle that all men are equal.

Life insurance carries this principle into practice.

In it, regardless of position or of means, each policyholder pays for what he gets and gets what he pays for.

In it the dollars of the poor man get the same trusteeship as the dollars of the rich.

YOU HAVE SEEN how competition, within the free frame of democracy, has developed strong life insurance companies whose assets are owned by the people they serve.

These companies offer the outstanding modern example of how individual planning and enterprise, under government supervision, can produce the maximum financial benefit for all kinds and classes of people.

WHEN YOU BUY life insurance you know that you become a co-sharer with others in the partnership benefits your togetherness creates.

You know that your common fund of savings is securely at the call of all those who participate in it, when emergency arises.

You know that through years of wars and depressions, panics and epidemics, life insurance in Canada has never failed to meet its policy obligations promptly and in full.
