PRINCE RUPERT HAS

BACK THE ATTACK

We are in the direct line of fire. If we do not carry the fight to the enemy, he will, no doubt, bring it to us.

War has brought to Prince Rupert a larger measure of development, employment and prosperity than we have ever known before.

Many of us who stay at home are doing better financially than we have ever done before.

We, too, have our men on the fighting lines who are offering to give their all—even their lives.

THERE IS NO COMMUNITY THAT HAS A LARGER STAKE IN THIS WAR THAN PRINCE RUPERT

We are able to buy Victory Bonds.

Have we a right to let any con ideration stand in our way of doing so?

WHEN OTHERS ARE GIVING AND SACRIFICING . . . Should we hesitate about investing in Victory and ensuring our own future?

Victory Bonds are your Best Bet Today.
