Stocking Care

A pulled thread or snag in a stocking should be fixed at once. A run-stop liquid can be carried in the purse. Later the hose can be mended or taken to a re-knit shop.

Nail polish as a run stopper can be used in emergencies but should never be used on acetate rayon fabrics as it may damage the fabric.

Be sure your garters are not too short-or buy longer hose. This will help prevent runs and holes in the top of the stocking. One way to determine proper hose size is to stand on a ruler and measure the foot from the heel to the tip of the toe Then add ½ inch to this foot 9:30—Novelesque shrinkage.
