TREAT IN ITALY

After four days lighting British and American forces have driven the Ge. as back from all positions north of the Voltumno River in Italy. The Nazis are retreating in full force and there are indications that they will withrdaw for a new stand on a river eighty miles from Rome. The Allied advance yesterday was one to three miles. The exact location of the Canadians is not revealed but is indicated they are six hours' distance from Naples. They are known to be taking and important part in the fighting. British warships are active on both west and east coasts of taly. Two enemy ships have been sunk between the island of Elba and the west coast. In the Adriatic a German transport en deavouring to land troops was sunk and British ships were under fire of enemy coastal batteries.

GENERAL WITHDRAWAL IN RUSSIA

Indicating a general withdrawal from the Dnieper River in Russia, Beilin spoke yesterday of a "systematic large detaching movement in the area of the Dnieper River." There is fierce hand to hand fighting from house to house, building to building and street to street in the important city of Melipol. At Kiev and Gomel the Red Army has been facing stiff rearguard resistance from the enemy, this being general all along the Dnieper River.

NO SEPARATE PEACE

The Finnish minister of finance, Tanner, says there is not ported that the Japanese force much chance of a separate peace between Finland and Russia. | was "virtually annihilated."

LONDON HAS BRIEF ALERT

London had a brief alert Saturday night, the first since October 8, but no enemy planes came over. German bombers struck at a southeast coast town but there were no reports of casualities or damage.
