## WARNEWS

CLOSING ON CATANIA

British and Canadian forces, advancing up the east coast of Sicily, have reached a point six miles from Catania and one report was that they had reached the outskirts. They are encountering stiff resistance from the enemy who are in strong positions on the slopes of Mount Aetna. Gerbini may be the next place to fall. On the west the Americans have captured Agriento as the enemy stage a general withdrawal. One-third of Sicily is now in Allied hands and Allied military experts declare that the situation is far more satisfactory than would have been dreamed MATERIAL situation is far more satisfactory than would have been dreamed of a week ago. There is no question now as to whether the Axis shall be driven out of Sicily. The only speculation is as to | Asbestos-Cement Product Being the stiffness of the resistance. More than thirty thousand prisoners have been taken, mostly by the Americans on the west

GREAT RAID ON NAPLES

Five hundred Allied planes, operating in waves with British and Americans alternating, staged the most destructive raid to date on Naples to continue the destruction of that greatest of Italian ports. Docks were smashed and the Royal Arsenal blasted sky high in addition to other extensive damage. Defending planes rose in a feeble effort to beat off the concentrated one-hour-and-a-half attack and 22 of them were shot down with the loss of but one Allied machine.

NEW RULE IN SICILY

The new Allied military governorship of Sicily has dissolved all Fascist organizations, declared itself in favor of restoration of private property rights and urged the Italians to refrain from acts of violence.

RUSSIANS CLOSE ON OREL

The Russians have advanced another six to eight miles in the Orel area and are reported to be on the outskirts of Orel. A complete Nazi regiment has been wiped out. A German-held river has been crossed at two points. On the south of the line near Novorossisk the Russians have captured strategic heights.

JAPS LOSE MORE SHIPS

Two hundred American planes, in the greatest bombing attack against the Japs in that area, have sunk seven Nipponese ships off the northern Solomons. Forty-nine enemy planes were shot down.

Of Governors on Early Visit

The board of governors of the Canadian Broadcasting Corporation is to visit Prince Rupert next month to go into the local radio situation with a view to deciding on the future policy of broadcasting from here.

There is understood to be a question as to whether the Corporation shall continue operation of the local station which it has been conducting under option for several months.

The ultimate intention of the Corporation, as previously indicated, was to link the local station directly with the national network.
