HOW REDDY KILOWATT SOLVED
"THE CASE OF THE VANISHING VITAMINS"
"It was really elementary," said Reddy Kilowatt as he emerged from a wall outlet. "I found that the precious vitamins had been attacked by three deadly enemies—Water, Heat and Air. And here is a summary of my investigations."
REDDY SAYS:
"There's no mystery about our vanishing enemies — keep on buying War Savings Certificates so that we can banish them with bombs."
THESE VITAMINS MET THEIR SAD END BY DROWNING!
The vegetables in which they were contained were soaking in water too long before cooking—and the vitamins met their end by drowning!
THESE VITAMINS EXPIRED FROM HEAT EXPOSURE!
The fruits and vegetables were cooked too long at too high temperatures. They just naturally gave up and disappeared into thin air!
THESE VITAMINS WERE STRANGLED BY AIR!
Unfortunately the fruits and vegetables had been cut up and left in the open air, and they had also suffered the terrible crime of being stirred while cooking. Air-strangulation resulted.
