## Further West, the Better . . .

In the report of a discussion at Monday night's meet- along the edge of his wedge cap ing of the Prince Rupert Chamber of Commerce it was mentioned that surveys were being made for a road direct north from "Prince Rupert" to the Peace River. This should, instead, have read direct north from "Prince on duty at the quarter stores will George." The report referred to was in regard to an issue have a faint idea what it's all as to which route would be the more beneficial to Prince about. Rupert-north from Prince George or north from Vanderhoof. Logically, the Vanderhoof route would be the most advantageous to Prince Rupert. Indeed, as E. T Kenney, M.L.A. for Skeena says—the further west the better. Prince Rupert is well justified in continuing the the Red Cross salvage department campaign with this end in view. Certainly, strong interests are still at work endeavouring to divert the Peace River traffic elsewhere than to Prince Rupert.

## The Task Ahead . . .

Victory, complete and final, although on the horizon with the nightmare of possible defeat and slavery now gone, is not yet in the grasp of the United Nations.

The Germans are still holding the land fortress of Europe, with access to the wealth and resources of that continent and are masters of millions of enslaved people who are supplying their war and peace requirements.

The Japanese are entrenched in the island fortress of the Pacific adjoining Asia and in Asia. They have con-CIGARETTE PAPERS quered an immense empire, one of the richest parts of the world, filled with war supplies of every kind and exceedingly difficult to reconquer.

There is much hard fighting ahead. It may be the sort of fighting that is highly concentrated in time and may be over soon with victory to us, or it may be spread over a long period and become a war of attrition. Which type it will prove to be is a matter of opinion but it is the part some tokens the life of a prisoner of wisdom to prepare for both eventualities and to press of war isn't so bad. Here's what a forward with all our strength, especially when some successes are coming to us after many bitter and costly his folks: "Did you ever stop to defeats.

## ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

By DOROTHY GARBUTT The Hostess

Today the Service Wives Club meets in the ladies' lounge at the Y. All service wives in the vicinity are welcome at these meetings. It is one way to make a nice circle of friends during one's stay in Prince Rupert.

The boys at Fairview are holding a dance tonight and are anxious to have a good attendance of junior hostesses. The girls will meet at the Y where there will be transportation to pick them up. YWCA chaperones will be Mrs. Frances Norrington and Mrs. Linda Ericson, representing the Women of the Moose. We are sorry to hear that Ernie Teager, YMCA supervisor, who is stationed somewhere in Alaska, is still ill in the hospital in Vancouver with peritonitis follow-

ing an operation for appendicitis. Wilson McDuffee, who used to be stationed at Seal Cove while on the Y staff last summer, is going

Next Monday evening the Boom Defence boys are holding a dance at the Empress. More details later.

If I tell this one all the quartermasters in town are going to be a ter me but I heard of a cute little trick the other day. It seems that one of the soldiers put a zipper and fixed a badge on it and there was a smart little purse for the girl friend back home. So if there's a sudden rush of lost caps the men

I'd like to thank Mrs. Ashcroft (Navy) for the large parcel of silver paper she left with us. It, together with the silver paper given by Mrs. Peagam, is on its way to in Vancouver.

The papers are full of advice these days on what sort of letters civilians should write to the boys. I'd like to remind the boys to keep their news as cheery as possible when writing home because a mother or a wife can do an awful lot of worrying over just one small

## FAT IS AMMUNITION!

Fat and bone conservation begins at home and ends in the firing line

## - DO YOU KNOW -

One pound of fat supplies | enough glycerine to fire 150 bullets from a Bren gun.

Two pounds of fat will fire a burst of 20 cannon shells from a Spitfire or 10 antiaircraft shells.

Bones produce fat and aircraft glue.

If we saved fat at the rate of one ounce per person per week this would mean 36,000,000 pounds per year, enough to produce 3,600,000 pounds of glycerine for explosives.

## OUR FIGHTERS DEPEND ON YOU

"Every householder who delivers to a retail butcher, collector, or Salvage Committee, any rendered or unrendered fats or bones shall be entitled to receive from the person to whom they are delivered 4 cents per pound net weight for rendered fats, and 1 cent per pound for unrendered fats."

The above paragraph is a direct quotation from Order A-642 of The Wartime Prices and Trade Board.

"Rendered fat" means fat melted down and strained to remove solid matter. It includes drippings and strained pan grease resulting from the cooking of meat.

"Unrendered fat" means raw or partially cooked fat free from lean meat and bone, but not fully rendered.

"Bones" means raw or cooked bones of cattle, sheep and hogs.
