We Made a Good Showing . . .

Prince Rupert may feel a measure of justifiable satisfaction over its showing in the Fifth Victory Loan campaign which resulted in a substantial over-subscription. The final figures on subscriptions will not be available for a few days but loan headquarters anticipate that their volume will exceed that of the last campaign in May when the wartime construction boom, since receded, was at its height. Further, the city campaign in the fourth loan received credit for a substantial volume of subscriptions from the forces whose contributions were handled entirely separately this time.

A bright spot in this campaign was a considerably better volume of sales to dry dock employees in spite of the fact that the payroll of the yard is considerably lower than it was in the spring. The dry dock workers are evidently taking the war more seriously than they did before. They have also learned the value of investing in this practical and profitable way. What may be said for the dry dock may also be said for the general public. We have now become Victory Bond conscious.

TALKING OF SWINDLES

Speaking about swindles, there was the G. T. P. swindle, during the last war, by which Prince Rupert and the northern interior took a buggy ride for 25 years. Now, we see an attempt to repeat. Glad to note however, that old Rip Van Winkle has one eye open at last—although the Alcan Highway was not our idea of a square deal or an Alaska Highway. This old racket has about played out.

I wonder how many have forgotten the buggy ride Canada took when the C.P.R. swindled us out of twenty-five years' taxes? Or, what a nice piece of statesmanship little Arthur put over during his brief term as premier—the White Elephant. Then, the C.P.R. sticks its nose into that nice plum, and if they do not take advantage of their fifth column disposition it will be a miracle. Now that they have pushed themselves into the C.N.R. offices in Rupert, we just wonder how long it will

before the C.P.R. steals the C.N. completely.

I wonder how much longer the public will stand for the fruit racket. For the past two years in particular, the fruits from southern B. C. have not been fit to eat. Anyone who knows what fruit should be like will agree that it is trash. Whether it is because it is picked too green, or what, the trash is not worth packing home as a free gift. If our agricultural experts are at fault, they should be strung up. Add to this, the fact that only the most inferior culls ever reach Rupert and you have cause for murder.

Take the passenger cars we ride in as far as Jasper. They have been discarded by all other regions of Canada and sent down to Rupert as Rupert will stand for anything (and still beat Ontario over the top on the Victory Loan). In spite of the fact, also, that British Columbia gets only a mere fraction of the liquor ration the other provinces get.

The Dominion government places Rupert on a 40 percent of normal rations, then ships thousands of troops and laborers to help dispose of that meagre dole. I am not so sure

that other provisions have not been made for many of these others but they use up their own allowance and then gobble most of the civilian ration as well. Which means that the public have to pay through the nose and get stung going and coming.

Did I say that Rip Van Winkle had one eye opened at last. Maybe I was too optimistic.

ENDORSE AMBULANCE FUND

The situation which has developed in regard to our ambulance is indeed serious.

Dr. Large, in his letter of Saturday, November 6, has pointed out the difficulties which may be encountered through this state of affairs. We believe it is the duty and privilege of each one of us to get behind this

Sanctimonius Hypocrites to Get Shock of Lives on Judgment Day

An attentive audience listened to Evangelist Balmer last evening in the Oddfellows' Hall portray the solemn scenes of the Judgment in Heaven which has been in progress for almost a century.

Mr. Balmer based his conclusions on the prophecies of the Judgment as recorded in Daniel 7: 9, 10, 13, 26, declaring that

drive and make it an overwhelming success.

On behalf of the Prince Rupert Registered Nurses' Association we heartily endorse Dr. Large's suggestion that a public subscription be opened in your paper, Mr. Editor, and we make a contribution of \$25 to further this worthy cause.

it was within the province of mankind to learn from the Bible just when the Judgment began. A close study of this prophetic chapter would reveal that the Judgment session was to convene sometime after the year 1798 A.D. and of necessity end before the second coming of Christ, in which event He would come with the rewards for the righteous.

Continuing the speaker read from Rev. 14: 7, "Fear God and give glory to Him for the hour of His Judgment is come." This solemn statement and warning message was associated with the preaching of the everlasting gospel 'o every nation, kindred, tongue and people. When this was accomplished Christ would return for all the righteous who were judged and accounted worthy by the Heavenly Tribunal which was in session at the present time.

Said Solomon in Eccl. 3: 17, "God shall judge the righteous as well as the wicked." In this judgment session the evangelist said that the records of the righteous only would be dealt with, quoting 1 Peter 4: 17 "For the time is come that

judgment must begin at the house of God."

The names of those who accepted Christ had been recorded in the Book of Life. It was a thing to get names written in the Book of Life but it has other things to keep them there. Jesus said in Rev. 3: 5, "I will blot out his name out of the Book of Life."

The evangelist reminded audience that every life would have to be accounted for. The hypocrites record would be unfolded which may have been kept secret before his fellowmen. The phylandering husband who had led a double life and posed as a sanctimonious Christian would have the record of his life when his record is revealed. Only those who lived in harmony with the precepts of God's holy law, good and spiritual law will be accepted in the Judgment, counted righteous and reward with eternal life. Deut. 4: 1-8, 2: 10-12, Rev. 22: 14

GONE FOR GOOD

During 1941, 2,500,000 Axis shipping were sunk or seriously damaged by the Royal Navy.

BLACK Light

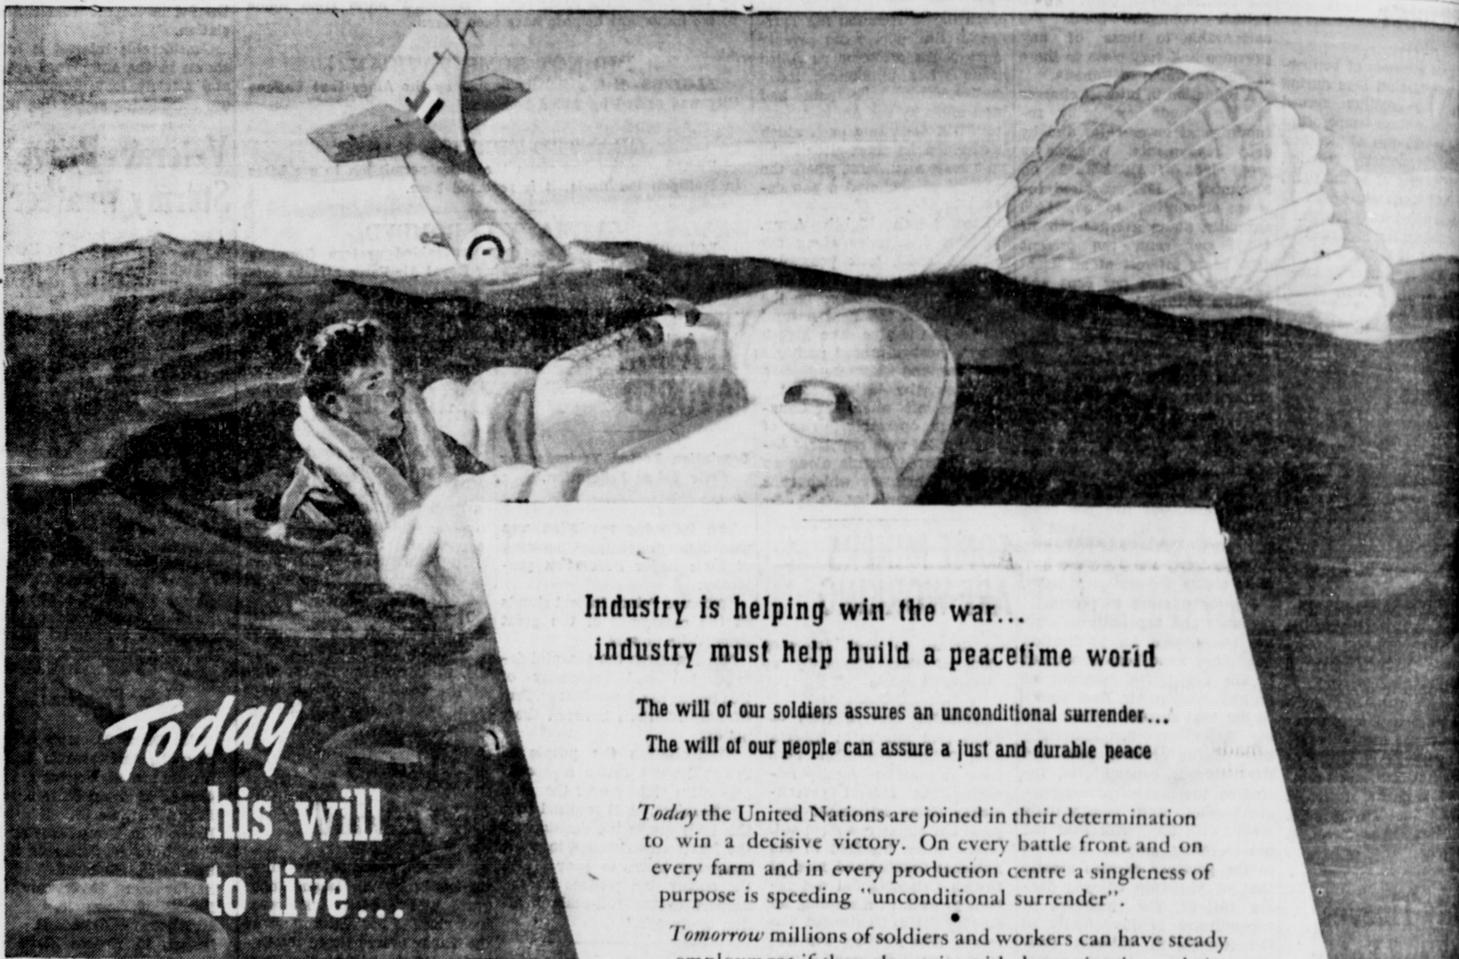

IS A **WAR WEAPON too!**

Black light—invisible rays thrown by specially designed Edison Mazda lamps—is "lighting" the fluorescent instrument panels of night fighting planes, serving in black-outs, detecting flaws in castings, helping in prospecting and ore sorting. A valuable weapon of war today, Black Light Lamps will find many applications in peacetime. For details contact your nearest C.G.E. office.

Today his will to live...

Industry is helping win the war... industry must help build a peacetime world

The will of our soldiers assures an unconditional surrender...
 The will of our people can assure a just and durable peace

Today the United Nations are joined in their determination to win a decisive victory. On every battle front and on every farm and in every production centre a singleness of purpose is speeding "unconditional surrender".

Tomorrow millions of soldiers and workers can have steady employment if they also unite with determination to bring about "a just and durable peace".

Prosperity can be realized only through the will of an informed and a united people. With their courage and their determination, the people's will to accomplish a righteous peace is irresistible.

People here, in common with people of other lands, can prosper materially and spiritually after the war ends—but only if now the peoples of the United Nations make loud their demands for "a just and durable peace".

IS REAL WAR

This is not a phoney war. The Canadian Army is in the thick of the fight. The only way we can win is on the field of battle. If physically fit and between 18 and 45 you are eligible for the Active Army, which is still an entirely volunteer Army.

Visit your nearest Army Recruiting Office today. Don't delay.
