VICTORIA, Nov. 6.—A reduction of \$12,329,857.14 in the gross debt of the Province for the fiscal year ended March 31 last, places British Columbia in the enviable position of being the only Province in the Dominion where a reduction has been shown in the public debt during the past ten years, it was announced today by Premier John Hart, Minister of Finance.

W. H. Brett, chairman of the public finance committee, is prominently mentioned as a candidate for mayor to succeed W. M. Watts at the civic election on December 16. There appears to be a possibility that he might be elected by acclamation.

Mr. Brett was elected for the first time at the election a year ago and would have to resign as mayor to run for mayor.

Thirsty Thieves Break and Enter

Entry by smashing a window at the rear, thieves broke into the Variety Store on the Avenue either last night or Saturday night and, as far as is known, got nothing but a few bottles of hair tonic.

According to Gordon Bryant, manager of the store, the thieves were not the objective of the police. He believes the store was broken into for the purpose of getting a few bottles of hair tonic.

At the present time there is no need for the province to go to the market for either new or conversion money. The next maturity, \$3,000,000 at 3 1/2 per cent, payable in Canada and New York, will fall due on March 31, 1944, and as yet no decision has been made as to the manner of its repayment.

Nazis Are Abandoning Italy Port

Lies Now Within Seventy Miles Rome—Two Armies Moving Steadily on

ALGIERS, Nov. 8.—Repeated explosions at Gaeta indicated today that the Germans were preparing to abandon the Tyrrhenian Sea port some seventy miles south of Rome as Allied headquarters announced today that another mile gain had been made by the Anglo-American Fifth Army in a push which threatened to short-circuit the west coast mountains where the enemy had anchored a new defence line.

The British Eighth Army, sweeping five miles along the Adriatic coast, took possession of the entire length of the Sinello River and advanced on the Sangro River, the next natural barrier in the area. The Eighth Army's most advanced positions were around Casalbordino, a town near the Adriatic coast.

On the left, where the Canadians are operating, gains of several miles were registered beyond captured Isernia along an important highway which runs across the mountains.

SOME MINERS ARE WORKING

But Return to Work Following End of Coal Strike by no Means Complete

CALGARY, Nov. 8 (CP)—Some coal miners in Alberta and British Columbia were back at work on Monday following the federal government's strike settlement proposal but others remained out. Some seven hundred in the Nanaimo-Cumberland field of British Columbia did not return to work as a meeting on Sunday did not authorize the return. The meeting was adjourned until Tuesday for further discussion of a settlement plan.

The Royal Commission, with powers of the War Labor Board, will begin hearings on Tuesday of the coal miners' application for wage increases. The miners quit work October 31 at midnight protesting at a delay in considering wage increases.

Nazi Resistance In Dnieper Bend Cracks; May Quit Leningrad

LONDON, Nov. 8 (CP)—The Russians were rolling swiftly toward the Rumanian border today after taking Fastov, vital rail junction thirty-five miles southwest of captured Kiev, thus snapping the principal rail link between German forces in the northern Ukraine and the Nazis still battling at Krivoirog. The mighty offensive moving at twenty-four miles per day threatens to crumble Nazi resistance in the Dnieper Bend and raised the possibility of trapping huge numbers of Germans. In the Crimea the Russians said they had killed one thousand Germans in repulsing counter-attacks and bridgeheads near Kerch and had generally improved their positions. There are indications that the Germans will abandon the Leningrad area.

Artillery is being loaded on small rafts.

This picture taken during the crossing of the Dnieper was made from the German side of the river after a bridgehead had been established. Here Russian trucks are seen rumbling across.
