There were over seventy entries at the Christmas turkey shoot at the Canadian National Recreation Association ranges on Saturday afternoon. Ladies were present as in other years and made a fine showing, considering the fact that in some viously handled a rifle.

A visitor and competitor was A. R. Holtby, retired B. and B. master, who is spending the Christmas holiday in Prince Rupert, renewing old acquaintances. Christmas music, so far at least, has not been so general on the air as it has been in here, Mr. Goodsell is survived some years past. The hour's program, featuring such music presented from station CFPR yesterday afternoon by the Acropolis Hill Choir, was, therefore, especially appreciated. The quality of the music itself was particularly good. The chon consisted of twenty-five voices and soloists were Mary Lee Second match, Miss Peggy Brown, soprano; Harald C. On the home front the battle against inflation is now the most critical of all.

The winning of this battle will contribute much to winning the war.

It will contribute more than all else towards the solution of post-war problems.

The purpose of Price Control is to prevent inflation. Its purpose is to protect and maintain a basic standard of living.

A higher money income will not be of any advantage if, because prices are going up, our money buys less and less.

To win the battle against unemployment in the postwar period, we must first of all win the battle against inflation.

Salaries and wages are a large element, often the largest element, in the cost of everything we buy.

If the Price Ceiling breaks down, in the long run all stand to lose.

We must hold the line against inflation to assure victory in war.

We must hold the line to provide a solid foundation on which, after the war, to build a greater and a better Canada.

Milleadung King. PRIME MINISTER OF CANADA
