Lhere are such thinos...

We have always looked forward to a "better world."

It has been easy to sit around and think up "better worlds."

But while we were sitting around, a gang of evil men plunged us into a worse one, instead.

They caught us "taking it easy."

Now we have to go about it the hard way.

Now we know that "better worlds" have to be worked for-tirelessly.

They have to be fought for—courageously.

They have to be built—and solidly.

We have always believed that, apart from a few criminals, the great mass of mankind wanted a world in which Goodness, Truth and Justice could flourish.

Now we know that whole nations are fighting to maintain a reign of terror, in which Evil and Lies and

Brutality are the ruling forces.

They want that kind of world.

They want a world in which Faith, Hope, and Love are blacked out.

They want a world in which Liberty, Equality and Fraternity are banished. We have always believed that such things as Love and Beauty and Brotherhood could never be bought.

But now we know they must be bought and paid for. They are not just words.

There are such things.

And we must guard them, as we would our most priceless possessions, against a ruthless, plundering enemy.

We must buy our own share in a

new world where these things will shine again.

Many must pay with their lives, but your share is less costly.
