Appeal to London

Former Premier T. D. Pattullo, who is visiting his constituency of Prince Rupert, has sent a message to Premier John Hart expressing surprise that application has been made to appeal to the Privy Council in London the gasoline case which was the subject of much attention during his (Mr. Pattulo's regime as Premier. Mr. Pattullo has told Mr. Hart that he understood the matter had been closed and that he had no knowledge of any governmental undertaking that the subject might be reopened after the war. Mr. Pattullo expressed pleasure to note that the government proposed to oppose the application.

Mr. Pattullo's message to Premier Hart arises from a special dispatch from Victoria published on Wednesday in the Vancouver Sun as follows:

"British Columbia's war with the gasoline companies which started a gas strike in 1940 and resulted in the then Premier T. D. Pattullo calling a special session of the Legislature, came up once more today when Attorney General R. L. Maitland was unexpectedly advised by cable from London that the oil companies have made application to appeal to the Privy Council.

"Mr. Maitland said he had been under the impression that arrangements were made three OTTAWA, July 17 (P) - The years ago to hold up any such

dard, Mrs. I. McTavish and the agreement with British this cable, instruction will go \* Columbia to encourage the de- forward from this department \* velopment of mining on Indian to oppose any such application," Mr. Maitland said. "The application to appeal seeks to take away the provincial right to fix the price of gasolinethis will be opposed by the government.

"Should the appeal itself reach the privy council it will also be opposed by British Columbia, Mr. Maitland said.

"The legal agents of the Attorney-General's department in London will make preliminary opposition to the application and if the case reaches the Privy Council there is a possibility Mr. Maitland will go himself to London to oppose it if travel arrangements can be made during the war.

"In 1937 the government passed an act setting up the Coal and Petroleum Products Board, which later brought into effect an order reducing the price of gasoline. The oil comcanies took the whole matter before the B.C. Court of Appeal which declared the act intra vires. The Supreme Court of Canada later upheld the B. C. Court of Appeal's decision. "The Pattullo government im-

mediately ordered the board's reduction brought into effect. The gas companies refused to sell gas. The board's reduction was three cents a gallon. However, there was a compromise and the reduction per gallon was made two cents. Mr. Pattullo then called the special session which approved the arrangements."

## Hardening Up The Canadian Army Overseas

It looks tough and it is if you haven't been hardened up by daily training. But for Canadian troops overseas it's all part of the day's work at a Battle Training School in England. Below, senior officers and instructors look on.

Four Canadian officers discuss day's work, two of them slightly worse for mud. Left to right, Major G. McGillivray, Port Arthur, Ont., Lieut. R. MacDuff, Montreal, P.Q., Lieut. J. P. Picard, Hull, P.Q., Capt. C. Fritz, North Battleford, Sask.
